Project #5

Project type	Support
Client	ABB
System	CFIN
Company	PWC
Role	SAP FICO Consultant
Duration	Oct 2023 to till date

About the Client:

ABB is a leading global technology company that energizes the transformation of society and industry to achieve a more productive, sustainable future. By connecting software to its electrification, robotics, automation, and motion portfolio, ABB pushes the boundaries of technology to drive performance to new levels. With a history of excellence stretching back more than 130 years, ABB's success is driven by about 105,000 talented employees in over 100 countries.

Responsibilities:

- Currently engaged in a CFIN implementation project, including ABB FTP integration.
- Responsible for addressing HFM and statutory reporting requirements, resolving issues encountered during month-end preparation.
- Tasked with resolving central payment issues to ensure smooth financial transactions.
- Facilitate communication with end-users through various channels such as Net Meeting, phone, and email for comprehensive requirement gathering.

- Manage change request (CR) incidents, ensuring proper documentation and resolution in a timely manner.
- Actively participate in discussions with other functional consultants to address critical project issues promptly.

Project #4

Project type	Implementation
Client	Imperial Brand
System	CFIN
Company	PWC
Role	SAP FICO Consultant
Duration	Feb 2023 to Sep 2023

About the Client:

Imperial Brands plc (formerly **Imperial Tobacco Group plc**) is a British Multinational Tobacco Company headquartered in London and Bristol England. It is the world's fourth-largest international cigarette company measured by market share after Philip Morris international, British American Tobacco and Japan Tobacco and the world's largest producer Fine-Cut tobacco.

Responsibilities:

- Configured key mappings, value mappings, and cost object mappings, including activation of the FINS_CFIN business function.
- Conducted DR1 & DR2 mock cycles, resolving AIF errors such as resetting of clearing, mapping change issues, and ETL discrepancies.
- Led DR1 – SIT phase, focusing on data validation and critical AIF error resolution, particularly document summarization.
- Identified test scenarios and developed test scripts, managed in JIRA for efficient tracking and testing.
- Monitored DMT IDocs for master data maintenance including Customer, Vendor, Material, and IBAN number updates.
- Executed unit tests, system integration tests (SIT), and prepared user manuals to ensure comprehensive testing and documentation.
- Provided post Go-Live support, ensuring smooth transition and addressing any issues arising after implementation.

Project #3

Project type	Implementation
Client	Veer-o-Metal Private Ltd

System	S4HANA
Company	PWC
Role	Associate FICO Consultant
Duration	Aug 2022 to Feb 2023

About the Client:

Veer-O-Metals was established in 1965. We are engaged in the manufacture of Stamped Parts, Precision Sheet Metal Fabrication Parts, Machined Components and Mechanical Assemblies. We have an in-house strong Mechanical Engineering and Manufacturing team for Design and Development, dedicated in providing high end design solutions which are industry specific.

We have established a strong client base at National and International level with our transparent and Global practices, and at the same time retaining robust quality management systems. By developing indigenously designed products of global standards for various sectors, we have added a new dimension to our already existing wide range of product manufacturing and assemblies.

Responsibilities:

- Prepared questionnaires, conducted workshops, and gathered requirements from stakeholders.
- Demonstrated SAP standard best practices aligned with business processes and documented the business process design.
- Participated in FIT gap sessions, identified gaps, and documented findings.
- Finalized documents outlining the "to-be" processes based on gathered requirements.
- Prepared baseline configurations and documented business process configurations in KDS and FSD documents.
- Created business roles template documents to define user roles and permissions.
- Developed and executed test cases, and documented results in the User Acceptance Testing (UT) document.
- Provided training to core users and end-users to ensure effective system utilization.
- Prepared user manuals for comprehensive system usage guidance.
- Offered post Go-Live support to address any issues and ensure smooth operation after implementation.

Project #2

Project type	Support
Client	Growth From Knowledge (GFK)
System	ECC 6.0
Company	Power soft Global Solution Ltd

Role	SAP FICO Associate
Duration	Jan 2022 to July 2022

About the Client:

GfK is Germany's largest market research institute, and the fourth largest market research organization in the world, after Nielsen Company, Kantar Group and Ips. In 2008 they attempted to become #2 via a merger with Taylor Nelson Sofres, a British firm. The GfK-Telemeter is a device to measure the TV ratings.

Responsibilities:

- Resolved maintenance issues and tickets related to FI promptly and effectively.
- Supported users in executing automatic payments, manual payments, and clearing programs, including terms of payments management.
- Analyzed assigned tickets, prioritized them, and provided satisfactory resolutions within defined timeframes.
- Offered guidance to users in resolving user-generated errors and incidents, ensuring smooth operation of FI processes.
- Raised change requests for necessary configuration changes as identified during support activities.
- Implemented additional configuration settings as required by the client to optimize system performance and meet business needs.

Project #1

Project type	Support
Client	Halliburton
System	ECC 6.0
Company	Power soft Global Solution Ltd
Role	SAP FICO Associate
Duration	Feb 2020 to Dec 2021

About the Client:

Halliburton Company is an American multinational corporation, is one of the world's largest oil field service companies with operations in more than 70 countries.

Responsibilities:

- Addressed incidents and tickets in FI areas such as General Ledger, Accounts Receivable, Accounts Payable, and Asset Accounting.
- Successfully resolved maintenance issues and tickets, ensuring the smooth functioning of financial processes.

- Extracted various reports from SE16N based on specific requirements.
- Met SLA requirements by resolving tickets within the defined timeframes.
- Rectified issues related to custom transaction codes (Z T.Codes) and formatting discrepancies.
- Facilitated communication with end-users through various channels, such as Net Meeting, phone, and email, for comprehensive requirement gathering.
- Prepared issue resolution documents and change request documents for documentation and tracking purposes.
- Actively participated in discussions with other functional consultants to address critical issues promptly.
- Provided support during month-end and year-end closing activities to ensure accurate and timely financial reporting.

Project #Domain

Company	Viswanadh Peketi And Associates
Role	Accountant
Duration	Jun 2015 to Aug 2019

Responsibilities:

- Conducted tax audits and compiled audit reports according to prescribed formats.
- Prepared projections and provisional statements to facilitate bank loan renewals and credit appraisals.
- Managed the entire accounting process, ensuring accuracy and compliance.
- Issued invoices to customers based on the stage of project completion.
- Handled statutory computations including TDS and GST.
- Finalized financial statements, ensuring accuracy and compliance with regulatory standards.
- Filed Income Tax, TDS, and GST returns, adhering to regulatory deadlines and requirements.

Declaration:

I hereby adjudge that the above-mentioned information is true to the best of my knowledge and belief. I bear the responsibility for the correctness of the above-mentioned particulars.

Place: Bangalore
