

Anji D

Mob: 7660915810

Email: anji182708@gmail.com

PROFESSIONAL SUMMARY:

- **Overall 4.10+ years** of IT experience which includes **3.6** years of experience as a **React JS** Developer with **6** months of experience in **Node.js**, **MongoDB** and **Vue.js**.
 - Extensive expertise in **React.js**, **Redux**, **Next.js**, **Vue.js**, **Tailwind CSS**, **SCSS**, **TypeScript**, and **ShadCN**.
 - Strong experience in full-stack development using **Node.js** and **MongoDB**.
 - Proficient in building and maintaining SPAs (Single Page Applications).
 - Strong knowledge of **server-side rendering (SSR)** and static site generation (SSG) using Next.js.
 - Hands-on experience with Vite for fast development and build processes.
 - Skilled in RESTful API integration and optimizing API performance.
 - Familiar with Agile/Scrum methodologies for efficient project execution.
 - Experience with cross-browser compatibility, performance optimization, and responsive web design.
 - Expertise in frontend and backend integration, ensuring seamless user experiences.
 - Strong debugging skills using Chrome Developer Tools, React Developer Tools, and Console Debugging.
 - Familiar with Unit Testing frameworks like Jest, React Testing Library, and Enzyme.
 - Experience with Git, GitHub, GitLab, and version control systems for collaborative development.
 - Ability to work both independently and collaboratively in a fast-paced, Agile environment.
 - Excellent communication and interpersonal skills, with a focus on problem-solving and innovation.
-

TECHNICAL SKILLS:

- Front-end Technologies: HTML5, CSS3, SCSS, JavaScript, TypeScript, Tailwind CSS, Bootstrap.
 - Frameworks & Libraries: React.js, Redux, Next.js, Vue.js, ShadCN UI.
 - Development Tools: VS Code, Webpack, Vite.
 - Backend Technologies: Node.js, Express.js, MongoDB.
 - Version Control & CI/CD: Git, GitHub, GitLab.
 - Testing Tools: Jest, React Testing Library, Enzyme.
 - Methodologies: Agile (Scrum), Waterfall.
-

WORK EXPERIENCE:

Publicis Re: Sources

Project: AI - SandboxGPT (Aug 2024 – Present)

Role: React JS Developer

Responsibilities:

- Developed and maintained React.js components for a highly interactive AI-driven platform.
- Managed global state using Redux Toolkit for optimal performance and scalability.
- Implemented TypeScript to enhance code reliability and maintainability.
- Designed and styled the UI using Tailwind CSS and ShadCN UI components.
- Integrated RESTful APIs for real-time data processing and AI interactions.
- Worked with React Hooks (useState, useEffect, useContext) to manage component lifecycle.
- Ensured cross-browser compatibility and mobile responsiveness.
- Followed Agile methodologies, participating in daily stand-ups, sprint reviews, and code reviews.

Environment: React.js, Redux, TypeScript, Tailwind CSS, ShadCN UI, REST API, Git, Agile.

Brandcorpit

Project: Brandcorpit (Apr 2024 – Aug 2024)

Role: React JS Developer

Responsibilities:

- Developed a React.js-based platform for brand poster validation.
- Managed state using Redux Toolkit and optimized performance.
- Implemented TypeScript to maintain a strong type-safe codebase.
- Styled the UI using Tailwind CSS and ShadCN UI components for a modern, responsive look.
- Utilized Vite for a fast and efficient development process.
- Integrated AI-driven validation checks to ensure compliance with company guidelines.
- Ensured cross-browser compatibility and mobile responsiveness.
- Participated in Agile development with daily stand-ups and sprint planning.

Environment: React.js, Redux, TypeScript, Tailwind CSS, ShadCN UI, Vite, REST API, Git, Agile.

PX-Portal

Project: PX-Portal (Oct 2023 – Apr 2024)

Role: React JS Developer

Responsibilities:

- Developed a Next.js-based application with server-side rendering (SSR).
- Implemented SCSS for modular and maintainable styling.
- Designed a multilingual platform for global accessibility.
- Managed state using Redux Toolkit for improved efficiency.
- Developed features for project management, including status updates, documents, budgets, payments, and country-specific details.
- Integrated backend APIs using Node.js and Express.js.
- Ensured cross-browser compatibility and mobile responsiveness.
- Participated in Agile workflows with daily stand-ups and sprint reviews.

Environment: Next.js, React.js, Redux, SCSS, Node.js, REST API, Git, Agile.

QUANTED TECHNOLOGIES PVT LTD

Project: ECommerce – Home Depot (Nov 2022 – Oct 2023)

Role: React JS Developer

Responsibilities:

- Design develops and test HTML5, CSS3, Bootstrap, JavaScript and React.JS that meets accessibility and web browser standards for website.
- Developed Date Time Picker using Object Oriented JavaScript extensively
- Worked on responsive design and developed responsive website that for desktop, Tablets and mobile users using React.js.
- Experience and building an isomorphic application using React.js and Redux
- Used Middleware, Redux-Promise in application to retrieve data from Back-End and to also perform RESTFUL services.
- Worked with backend engineers to optimize existing API calls to create efficiencies by deprecating unneeded API calls.
- Used various bootstrap components like accordion, date picker, time picker, alert, buttons, modal, and react-bootstrap components.
- Thorough understanding of CSS principles with a clear ideology for managing maintainable, scalable, and cross-browser code.

- Developed the relevant backend RESTful API using Node.js and Express.js.
- With the concept of ReactJS Worked on usage metrics and end to end events tracing for analysis purpose.
- Working experience on CSS Background, CSS Positioning, CSS Text, CSS Border, CSS Margin, CSS Padding, CSS Table, Pseudo Classes, Pseudo Elements and CSS Behaviours in CSS.
- Responsible for checking cross browser compatibility and hence worked on different browsers like Safari, Opera, Firefox, Google Chrome, and Internet Explorer.
- Resolved complex issues related to browser and network performance, cross-browser and legacy IE compatibility, client-side scaling, data modelling, usability, and testability.
- Deep understanding and working experience in Object Oriented JavaScript programming and JavaScript Spring MVC frameworks.

Environment: React.js, Redux, TypeScript, Node.js, REST API, Git, JIRA.

Farmers Insurance, Los Angeles (BFSI – Insurance)

Project: Farmers Insurance (Sep 2021 – Nov 2022)

Role: React JS Developer

Responsibilities:

- Designed the front-end applications, user interactive (UI) web pages using web technologies like HTML, XHTML, and CSS.
- Web designing & development using HTML5, CSS3, JavaScript, React JS.
- Used React JS in development of the web application to bind the data/model that is being retrieved from a database through services provided in a controller to the view using scope.
- Used React JS in components like JSX, creating React components, Virtual
- Participated with end users and business analyst to understand the business requirements.
- CSS styles were developed in order to preserve the uniformity of all the screens throughout the application and positioning of screen objects.
- Worked on Front end by using JavaScript.

Environment: React.js, Redux, HTML5, CSS3, JavaScript, Git.

EDUCATION:

Bachelor of Science (B.Sc), Suresh Gyan Vihar University, Jaipur – 2020
