

ANKITA PATIL

QA Engineer

OBJECTIVE

I am Ankita a Dedicated QA with a proven track record of ensuring the quality and functionality of software. Possesses 3 years of experience in Manual , API & Automated testing across Telecom as well as Food Domains. My objective is to obtain position in software testing to utilize my skills and abilities in the reputed industry that offers security and professional growth while being resourceful, innovative and flexible

EXPERIENCE

Presently working in **Fulcrum (Culinary) Digital Pvt Ltd, Pune** from Oct - 2021 to till Date as QA Engineer. From March-2021 to Sept.-2021 Internship at Aspire SoftTech, Pune. From Oct-2021 to July 2022 working on third party payroll Ikrux Solutions Pvt Ltd.

EXECUTIVE SUMMARY

- Having 3 years of extensive experience in Manual/API , Automation Testing specializing in Software Quality Assurance Testing, Software Automation Engineer and proficient in testing on Web based Applications.
- Good knowledge and experience with Oracle and MySQL database.
- Good knowledge in UNIX ,LINUX Commands.
- .Well understanding of API concepts, protocols (REST, SOAP,POSTMAN), and data formats (JSON, XML). Experienced with Web Services, SOAP UI, RESTFUL, WSDL technologies in SOAP UI Tool also used Postman Tool with GET, PUT, POST, DELETE Methods.
- Good knowledge of POSTMAN Tool.
- Done Token generation in SWAGGER for authorization using Bearer Token also check different files and data validation in Swagger.
- Good Knowledge in Software Development Life Cycle (SDLC) and Test Life Cycle (STLC) and Defect life Cycle.
- Extensively working experience in preparation of Test cases and Defect reports.
- Good knowledge of Defect Logging, Tracking and Analysis. Good
- Knowledge in Test case design, Test case execution, Test Reports and Defect Management.
- Thorough understanding of Waterfall, V model, Agile.
- Good experience in creating test scripts using WebDriver, Selenium-IDE,RC, Selenium Grid in Java.
- Good Knowledge of Object Oriented programming Concepts (OOPS) and Java Skills
- Experience in Functional, Regression and System testing using Manual and Automated testing tools - selenium Web Drive
- Experience in automating test cases using TestNG, Maven, Jenkins scripting and execution . Good experience in Data Driven and Hybrid Testing.
- Good Experience in writing XPath or CSS to locate web elements. Worked on Cross browser testing, browsers like Mozilla Firefox, Google Chrome and IE using WebDriver.
- Experience in testing Web services using SOAP UI tool. Aware about Agile Methodology.

EDUCATION

- MCA with 66.00% from Shivaji University, Kop.
- BCA with 67.64% from Shivaji University, Kop.
- H.S.C with 81.00% from State Board.
- S.S.C with 66.00% from State Board.

TECHNICAL DETAILS

- Testing Tools : SOAP UI, API, POSTMAN, SWAGGER SeleniumWebDriver.
- Project Methodologies : SDLC, Agile Scrum, Waterfall, V-Module
- Languages : Core Java
- Build Tools : Eclipse, Maven, TestNG, Jenkin
- Databases : Oracle, SQL Server, MySQL Developer
- Operating Systems : Windows , UNIX, LINUX
- Test Management Tools : ALM Quality Centre, JIRA

PERSONAL DETAILS

- Nationality : Indian
- Languages : English, Hindi, Marathi.
- Marital status : Single

PROJECT

PROJECT : 1 : Mediacom Communications (Telecom Domain)

TOOLS : SOAPUI, API POSTMAN, Selenium WebDriver, Eclipse, Maven, TestNG, Jenkin

Description: It provides various types of services like, CRM and Billing System Integration Solution for Mediacom Communications customer satisfaction, delivers value-added services to customers, and improves multi-channel capabilities and effectiveness of marketing solutions in lesstime. Mediacom Communications ensures reliable data and IP communications for corporate and wholesale customers in USA. CRM is built on a standards-based architecture that streamlines business processes, improves data quality, and allows all your key divisions to draw from the same source of data. With CRM, your company owns the single best tool for customer success accurate information

PROJECT : 2 : Food Organization CS (Food management chain (ERP-Enterprise Resource Planning)).

TOOLS : SOAPUI, API , POSTMAN ,SWAGGER, Selenium WebDriver, Eclipse .Maven, TestNG.

Description: CS Food management software is a Comprehensive, mobile-enabled, modular and SaaS-based ERP (Enterprise Resource planning) solution to automate foodservice Businesses. With modules for Foodservice, Nutrition and front Office Management, the System seamlessly connects your supply chain with the front and back office. Its primary functions include Recipe, Product and Vendor management, Menu Planning, Nutritional Analysis, Allergen & Ingredient Tracking, Inventory Management, Revenue Management, Procurement Process and Production Record Generation.

Project: 2 : Industrial Corporate Client Solutions (Investment Banking Domain)

Description: A payment gateway is a merchant service provided by an e-commerce application service provider that authorizes credit card or direct payments processing for e-businesses, online retailers, bricks and clicks. A payment gateway is an ecommerce service that processes debit/ credit card payments for online and traditional brick. Payment processor analyses and transmits transaction data. A payment gateway authorizes the transfer of funds between buyers and sellers. The payment gateway may be provided by a bank to its customers, but can be provided by a specialized financial service provider as a separate service, such as a payment service provider. A payment gateway facilitates a payment transaction by the transfer of information between a payment portal (such as a website, mobile phone or interactive voice response service) and the front end processor or acquiring bank.

ROLE AND RESPONSIBILITIES

- Creating Test scenarios and Collecting Test Data. Identifying end to end scenarios and code Modularity.
- Implementing JUnit or TestNG Test Automation framework and developing automation infrastructure.
- Creating reusable components.
- Creating and enhancing Test Cases using Element locators, WebDriver methods, Java programming concepts and TestNG Annotations.
- Error Handling, Adding comments.
- Creating Data driven Tests and Running through framework. Cross Browser Testing (Executing test cases against various browsers like Mozilla Firefox, chrome, IE and Safari etc.
- Parallel Test Execution. Defining and exporting Test Results.
- Analyzing Test Results and Reporting Defects.
- Tracking Defects and Select Test cases for Re & Regression Testing.
- Modifying Test Automation Resources and Maintenance of Resources.
- Should able to use all the web methods like GET, PUT POST, DELETE, etc.
- Validate the response, response time, error code.
also generate Done Token in SWAGGER for authorization using Bearer Token also check different files and data validation in Swagger.
- Able to validate the XML and Json body by using Json parser.
- Able to read and understand the API documentations.
- Created and Verified Web services API requests, SOAP Protocols.
- Involved in creating Test Environment for Web services Testing
- Active participation in reviews and status meetings.
