

BHARATH A V

Project Associate - II | AI/ML Engineer Bengaluru, India | +91 8147900590 | bharath.naidu.1405@gmail.com [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Innovative AI/ML Engineer with 4 years of experience developing cutting-edge solutions for autonomous systems and data analysis. Proven expertise in applying deep learning techniques to enhance UAV control systems, optimize performance, and drive technological innovation through advanced machine learning and computer vision methodologies.

CORE COMPETENCIES

- Artificial Intelligence & Machine Learning
- Computer Vision
- Deep Learning
- Data Science
- NLP (Natural Language Processing)
- UAV Systems
- Software Development
- Object Detection & Tracking
- Microsoft Office (Word, Excel, PowerPoint)
- AI Tools (Chatgpt, Claude, Gemini, Merlin, Google Bard etc..)

PROFESSIONAL EXPERIENCE

Project Associate – II | May 2023 - Present

CSIR - National Aerospace Laboratories | Bengaluru, India

- Spearheaded AI/ML project development, implementing deep learning algorithms that improved autonomous UAV control accuracy by reducing decision-making latency
- Engineered advanced computer vision models for UAV autopilot systems, enhancing object detection capabilities
- Designed robust data workflow including data collection, image annotation (CVAT), and YOLOv8 neural network training
- Optimized deep learning models for real-time object detection, tracking, and obstacle avoidance
- Developed and fine-tuned machine learning models (SVM, CNN, Decision Trees, Random Forests) to improve UAV performance metrics

Software Design Engineer | Nov 2021 - May 2023

Hindustan Aeronautics Limited (via Shripad Corporate Consultancy) | Bengaluru, India

- Led development of UAV Ground Control Application (AVCGUI) for Kiran UAVs - Implemented critical use cases in MFC C++ using Visual Studio, enhancing aircraft control and monitoring capabilities

- Authored comprehensive software and functional requirement documents
- Reduced development cycles by 20% through detailed use case documentation
- Developed and executed test cases using LDRA tools, achieving 98% code coverage

Data Science Intern | Apr 2021 - Sep 2021

INNODATATICS Inc | Bengaluru, India

- Managed end-to-end data science project lifecycles using Python and machine learning techniques
- Utilized Scikit-learn, TensorFlow, NumPy, Pandas for processing and analyzing large datasets
- Developed and optimized machine learning models to improve prediction accuracy
- Delivered data-driven solutions aligned with business requirements

Technical Support Engineer | Dec 2020 - Mar 2021

HP Inc. (via Fidelis Corporate Solutions) | Bengaluru, India

- Diagnosed and resolved complex technical issues in laptops with 95% first-call resolution rate
- Maintained exceptional customer satisfaction score of 4.8/5
- Collaborated effectively with senior team members to address challenging customer queries

TECHNICAL SKILLS

- **Programming Languages:** Python (Advanced), C++
- **AI/ML Tools:** TensorFlow, YOLO, Scikit-learn, Computer Vision, NLP
- **Data Science:** NumPy, Pandas, Matplotlib, Seaborn, Exploratory Data Analysis
- **Development Tools:** Jupyter Notebook, Visual Studio, Git, CVAT
- **Frameworks:** Django
- **Project Management:** JIRA, SDLC Methodologies

EDUCATION

Bachelor of Engineering: Mechanical Engineering Visvesvaraya Technological University | Aug 2016 - Aug 2020 - CGPA: 7.04/10

CERTIFICATIONS

- Gen AI Certification, Udemy (2024)
- Data Science Certification, Excelr Solutions (2020-2021)
- Python Programming Training, Decibels Labs (2019-2020)
- Text Analytics 101, IBM (2021)

ADDITIONAL INFORMATION

- **Languages:** English (Native), Hindi, Kannada, Telugu (Fluent); Tamil (Conversational)
- **Soft Skills:** Effective Communication, Rapid Learning, Collaborative Team Player
