- An effective communicator with excellent management skills & strong analytical, problem-solving & leadership abilities.

Core Competencies

- Played key role in test process required for releases and patches of the product
- Writing Automation Test cases by using Selenium WebDriver with java
- Possess expertise in Manual testing.
- Agile Frameworks - Scrum, Kanban, Lean, XP
- Conflict Resolution, Impediment Removal
- Facilitation, Negotiation, Product Backlog Management, Prioritization.
- Continuous, Integration & Continuous Development
- Metrics like Burndown and Burnup charts, Cycle time etc
- Capacity Planning, Estimation using planning poker
- Software Development life Cycle SDLC)

- Has good experience of working in agile development methodology.
- Study of Business Requirement and Functional Requirement Document.
- Creation of Test Strategy, Entry Control Document & test Data preparation using Intake forms.
- Creation of Test Case Matrix.
- Build deployment, checking and changing server configurations.
- Knowledge of Product Suite level Integration testing, Performance and Load testing using HTTP Watch.
- Scripts writing and execution.
- Creation of Defect Tracker, Creation of Test Summary Report, QA report, Exit Control Document.
- Hands on experience in API testing using Postman.
- To document business requirements, define “As is” and “To be” processes.
- Knowledge transfer from client to team, obtain technical knowledge and share it with team.
- Experience in Performance & security testing
- Experience in Mobile testing

Technical skill set

Testing	Manual, Automation and Api testing
Api Testing tool	Postman and rest assured, Appium
Project Management tool	Jira
Bug tracker & Testing tool	Postman, Selenium WebDriver, cucumber, rest assured, CI/CD (Jenkins)
Frameworks	BDD, Pytest

Project Summary

Company: Tata Consultancy services Private Limited on payroll of Applitech Solutions

Working Duration: Feb 2023 to March 26 2025

Designation: Software Tester

Client: IDFC Bank

Project 1:

Ensure that promotional banners, alerts, and notifications are displayed correctly across various pages and that they meet the defined UI/UX standards for content, positioning, and responsiveness. Working in idfc bank ..

- Always focus on applying agile values and principles to bring good quality for the customer.

- Hands on Scrum teams Management using agile methodology
- **Good experience with APPIUM** for mobile testing for ios and android devices
- I have experienced in mobile testing for both manual and automation by using appium.
- Writing Automation Test Cases By using **Selenium WebDriver** with **python** with **pytest** farmework
- Integrating Automation project with **Jenkins**.
- Have Good experience in **developing framework** from **scratch** and integrating project **in Jenkins**
- Writing Automation test cases for API's by using **postman** and **RestAssured**

Company: Tata Consultancy services on payroll of Applitech solutions

Working Duration: Jan 2022 to Jan 2023

Designation: Software Tester

Client: DBS Bank

Project 2:

Ensure verifying the profit and loss as part of that I have been verifying the ui like upload, Tables and commentary . Based on sales, Sales will be generated.

- Always focus on applying agile values and principles to bring good quality for the customer.

- Hands on Scrum teams Management using agile methodology
- Writing Automation Test Cases By using **Selenium WebDriver** with **python** with **pytest** farmework
- Integrating Automation project with **Jenkins**.
- Have Good experience in **developing framework** from **scratch** and integrating project **in Jenkins**
Writing Automation test cases for API's by using **postman** and **RestAssured**

Company: Ochre private limited

Working Duration: Dec 2018 to Feb 2020

Designation : Junior Test engineer

Client: Blue Yonder

Project 3:

Project summary:

To enhance supply chain efficiency, improve inventory management, and elevate customer experience through advanced analytics and AI-driven decision-making.

- Writing Automation Test Cases By using **Selenium WebDriver** with **java** with TestNG farmwork
- Have Good experience in **developing framework** from **scratch** and integrating project **in Jenkins**
 - Writing Automation test cases for API's by using **postman** and **RestAssured**

Education Details:

- *Graduation(BTECH) completed from SIR CR Reddy engineering college Affiliated By Andhra University in 2017*
