- Chittoor , Andhra Pradesh

PROFESSIONAL SUMMARY

- Experienced Python developer with **4+ years** of hands-on experience in Python, Django, Flask and Mysql.
- Proficient in database design, RESTful API development, and microservices architecture implementation.
- Strong grasp of OOP principles and software engineering best practices.
- Familiar with front-end technologies for effective collaboration.
- Skilled in Agile methodologies for efficient project delivery.
- Experienced in version control with Git, GitHub, and Bitbucket.
- Practical experience with cloud platforms like AWS.
- Comfortable with both Linux and Windows environments.
- Proficient in PyCharm for efficient development workflows and utilize pytest for effective testing strategies.
- Possess strong problem-solving and communication skills.
- Passionate about learning and contributing to innovative projects.

PROJECTS

- Project Title** : Moneysupermarket.com
- Domain** : E- Commerce
- Span** : July 2022 – Present

As a Python Developer at Moneysupermarket.com Group plc, I spearheaded the creation of a robust price comparison tool for financial services. This tool enabled users to efficiently compare insurance, loans, and credit cards, empowering them to make informed financial decisions.

Duties of Project

- Developing Python/Django backend with MySQL DB, integrating third-party APIs.
- Enforcing coding standards, conducting pytest testing.
- Creating user-friendly interfaces with React, HTML, CSS.
- Collaborating with backend team for seamless integration.
- Ensuring UI/UX testing and smooth user experience.
- Managing MySQL databases, optimizing performance, ensuring data integrity.
- Leading development team, prioritizing security, utilizing CI/CD for deployment.
- Conducting automated and manual testing, monitoring performance, scalability.
- Designing wireframes, iterating based on user feedback.

PROFILE

As a seasoned Python developer with over 4 years of hands-on experience in Django and Mysql, coupled with expertise in database design, RESTful API development, and microservices architecture, my career objective is to leverage my skills and knowledge to drive impactful projects in a dynamic environment.

KEY SKILLS

- Python
- Django
- Javascript
- Restful API
- MySQL
- React Js
- Aws (Ec2,Ecs,S3,Lamda)
- Devops (Jenkins,Docker,Git)

ORGANIZATION

Ascend Avenue Solutions Private Limited
Hyderabad
Apr 2020 - Present

QUALIFICATION

- BSC (Statistics)
- SV UNIVERSITY

- ♦ **Project Title** : Eventbrite
- ♦ **Domain** : Ticketing
- ♦ **Span** : May 2020 – Jun 2022

The objective of this project is to develop a Python script that scrapes event data from Eventbrite, an event management and ticketing website. This script will allow users to extract information about various events such as event name, date, location, description, and ticket pricing. I decisions.

Duties of Project

- Collaborated with cross-functional teams to define project requirements and timelines.
- Optimized user experience and streamlined online shopping processes using Python and related technologies.
- Developed robust backend systems for data processing and authentication, with optimized database structures.
- Designed intuitive user interfaces with HTML, CSS, and React, and built RESTful APIs for frontend-backend communication.
- Conducted comprehensive testing, optimized code for performance, and documented codebase and system architecture.
- Provided technical support for integration and troubleshooting.
- Implemented web scraping techniques to extract event data.
- Developed customizable search parameters for users.
- Cleansed and structured scraped data into JSON for easy analysis.
- Implemented robust error handling mechanisms for graceful error management during scraping.
- Optionally, developed user-friendly interfaces such as a command-line user interface for easy search input and data viewing.

DECLARATION

I hereby declare that the information furnished above is true to the best of my knowledge.
