Bengaluru, Karnataka, 560067

Full-stack Developer

 @premsrivastava

 [prem-srivastava-a62a00190](https://www.linkedin.com/in/prem-srivastava-a62a00190)

SUMMARY

As a **full-stack developer**, with **4** years of work experience, I've had the privilege of working on both the **front-end** and **back-end** of projects. Specialized in **Java**, **Spring Boot**, and **Microservices**, proficiently developing and maintaining **RESTful APIs** while ensuring robust security measures through **Spring Security**. Skilled in **AWS**, **MySQL**, and **front-end** technologies including **Angular**, **Bootstrap**, **Basics of TypeScript**. Proficient in various frameworks and tools such as **Hibernate**, **MongoDB**, and **Git** and **Github**.

TECHNICAL SKILLS

- ❖ **Core Java, Java 8+, J2EE**
- ❖ **Spring Boot, Spring Security, Spring MVC, Hibernate, JSON, Restful APIs**
- ❖ **Angular, basics of HTML, CSS & Typescript**
- ❖ **Microservices, Web Services, AWS , Agile Methodology**
- ❖ **Tools- STS, MySQL Workbench, Eclips, IntelliJ IDEA, Postman, Swagger API**
- ❖ **Other Tools- Angular CLI, Node.js, Visual code, Git-hub**
- ❖ **Database- MySQL, MongoDB**

EXPERIENCE

Total Experience: 4 Years

- **Autodesk** (Full-stack Developer) Nov '23 till date
- **Vyapar App Billing software** (Java Developer) Feb '23 till Nov '23
- **iEnergizer IT Services Pvt Ltd.** (Java Developer) Jan '22 till Jan '23
- **Karvy DigiKonnnect private Limited.** (Java developer) Aug '19 till Jul '20
- Proficient in understanding requirement **documents** and **ER Diagrams** for efficient project comprehension.
- Proficient in **Java/J2EE** with expertise in **OOPs, Collection, MultiThreading** and **Java8**.
- Experienced in developing applications using the **Spring Framework**, including **Spring Boot , Spring MVC, Spring Data JPA** and **Spring Security**.
- Knowledgeable in **Hibernate** for **ORM** and efficient database management.
- Experienced in designing and implementing **RESTful Webservices** for data exchange, using **JSON** for **data serialization**.
- Responsible for the **end-to-end development** and maintenance of **RESTful APIs (GET, PUT, POST, DELETE)** leveraging **Spring Boot**.

- Knowledgeable about **Microservices architecture** and best practices for building scalable and modular applications.
- Proficient in **API Gateway management** within a **microservices architecture**.
- Implementing **security features** and **authentication** using **Spring Security**.
- Experienced in handling **JWT Token** for secure **authentication** and **authorization**.
- knowledge of **JSP**, **Servlets** and proficiency in Mark-up Languages like **JSON**.
- Skilled in working with **MySQL** for database design, **SQL queries**, and data manipulation.
- Comfortable with **Agile methodologies**, including **Scrum** for efficient project management.
- Experienced in writing and executing **JUnit tests** to ensure code quality and reliability .
- Familiar with **Git and GitHub** for **version control** and **code collaboration**.
- Skilled in implementing robust **Exception handling** mechanisms for application stability.
- Experienced in **integrating third-party APIs**, such as **WhatsApp SMS**, **messaging SMS**, **payment gateways** and **Email Api** for extended functionality.
- I have a deep understanding of **Software Development life Cycle**.
- Expertise in implementing **validation logic** using **Spring Validation framework**.
- Experienced in **debugging**, and optimizing software applications using **Eclipse**, **STS**, and **IntelliJ IDEA**.
- Familiar with **AWS services**, particularly **RDS**, **EC2**, **S3**, Elastic Beanstalk.
- Capable of **solving complex problems**, developing effective solutions, and skilled in **troubleshooting** and issue resolution.

Project

Project Title: Bus Reservation System

Company Name- Autodesk

Team Size: 7

Process : Agile Scrum Process

Roles and Responsibilities

Modules Developed in this project:

OTP User Validation: Developed **OTP validation** features in **Spring Boot** using third - party **API services** for user authentication.

Bus Module: Implemented **CRUD operations** for the Bus Module **REST API**, ensuring seamless management of bus- related data.

Search Buses: Utilized JPQL with **joins concepts** to efficiently retrieve data from **relevant tables**, enhancing search functionality.

Generation Tickets: Developed a feature to **generate PDF tickets** upon successful booking using the **iTextPDF** library, ensuring a smooth ticketing process.

Sign In & Sign Up: Implemented **Spring Security** with **JWT token authorization** and **authentication** for secure user access.

Payment Gateway: Successfully set up a **sandbox** account and integrated **payment gateway** to facilitate seamless transaction.

Email Services: Utilized **third-party email services** for booking and **forgot password** implementations, enhancing user communication.

Data Validation: Ensured data integrity by validating all user inputs using **Spring validation** techniques.

Refactoring the Code: Employed **LOMBOK** annotation and **Model Mapper** to refactor codebase, improving code readability and maintainability.

Blog Implementation: Implemented **CRUD operations** for **posts and comments**, enabling users to interact with blog content.

Review Module: Developed a user review module to **gather feedback** and **enhance** user experience.

Passenger Module: Implemented **mapping concepts** for the passenger table and performed **CRUD operations** to manage passenger data effectively.

ER Diagrams: Analyzed **Entity-Relationship diagrams** to understand **database structures** and performed development accordingly.

API Documentation: Prepared comprehensive **API documentation** and shared it with the **Angular team** for **seamless fronted integration**.

Defect Fixing: Efficiently addressed defects communicated by testers, ensuring high-quality software deliverables.

Deployment: Deployed the application on **AWS** ensuring availability and scalability.

Cab Reservation: Currently working on developing the **Cab Reservation module between two cities**, showcasing ongoing project involvement and dedication.

Shopping App -Angular

The app is designed for users who can add items to their **shopping cart**, **view cart** contents, **update quantities**, and proceed to checkout seamlessly. Implemented custom directives and **Pipes, Forms** to enhance application functionality and achieve a more declarative coding style. Basics Specialization in Angular CLI, TypeScript, From Setup to Deployment, From Setup to Deployment, **Components, Directive, Services, Authentication, Http Access**, Optimizing an Angular App with Modules and Offline Compilation, Unit Testing, Angular animation, Standalone Components, Angular signals, NgRx for State Management.

Licenses & certifications

- ❖ **Angular-The Complete Guide from Udemy**
- ❖ **Spring boot 3, Spring boot 6 and Hibernate from Udemy**
- ❖ **Computer Networking from CETPA Infotech private limited**

EDUCATION

- ❖ **DR. A.P.J.Abdul Kalam Technical University lucknow | B Tech-CSE** (2019)
- ❖ **XII (B.S.R.P. INTER COLLEGE Nagra Ballia UP) | School** (2013)

Personal Details

Date of birth-02/07/1996

Nationality- Indian

Marital Status- Single

Hobbies- Traveling, Listening Music, Reading

Strength - Self motivated, Hardworking

I have declared that all the information mentioned above is true

Name-Prem kumar Srivastava
