Professional Summary:

- Having 5.6 years relevant experience in Information Security and currently working as Security Analyst (Security Operation Centre team)
- Hands on experience on Threat analysis and **Security Monitoring and Operation.**
- Experience on **SIEM (Security Information and Event Management) tools** like Monitoring real-time events using LogRhythm, Sophos, Microsoft cloud portals, Proofpoint and IBM QRADAR tools.
- Experience on **SPLUNK tool** and Fundamental Certification
- Monitoring real-time events using SEIM tools like **HP ArcSight.**
- **Crowd strike EDR** guides cover configurations, technical specs and use cases.
- **Work Experience on Microsoft Azure Sentinel, Defender and Cloud App Security.**
- **Good experience in Team Handling and Monitoring Team, worked as a shift Lead.**
- Determining vulnerability applicability and providing actionable remediation guidance to various teams
- **Tenable IO** Implementation and migration
- Strong understanding of industry standards and guidelines regarding **vulnerability management**, including Common Vulnerabilities and Exposures (**CVE**), Common Vulnerability Scoring System (**CVSS**), and Open Web Application Security Project (**OWASP**)
- Hands-on experience with vulnerability management processes and tools (e.g., **Tenable, Nessus,**)
- Preparing daily, weekly, and monthly report as per client requirement.
- Investigating and creating case for the security threats and forwarding it to Onsite SOC team for further investigation and action.
- Hands-on experience with vulnerability management **Tenable IO**
- Experience on performing log analysis and analysing the crucial alerts at immediate basis.
- Filling the Daily health checklist.
- Experience on PC assembling, OS Installation and troubleshooting.
- Installation of Application Software and Anti-virus software.
- Installing the Operating Software such as Windows.
- Technical support as hardware and Software Engineer.
- Supervised and performed installation of new IT network equipment and system software.
- Preparing reports as per client request, Preparing Knowledge base and use cases.
- Reporting weekly / monthly dashboards to customer.
- Recognizing attacks based on their signatures.
- Monitoring and carrying out second level analysis incidents.
- Have knowledge in device integration, alarm creation and watch list creation in ESM.

Work Experience:

- Working as **SecOps Engineer** with Responsive from July 2023 to Feb 2024
- Working as **GSOC** with KPMG- from July 2021 to June 2023
- Worked as **Security Analyst** with Experis IT Pvt Ltd from Sept 2018 to July 2021.

Technical Skills:

- Application Security - Web Security
- **SOC** (Security Operation Centre)
- Vulnerability Assessment: **Tenable, Nessus**
- Phishing Email Analysis,
- Ticketing Tools: **Service now, Jira** and **SecOps**
- Email Security: **Proof Point**

Professional Experience:

Company: Responsive

July 2023 to Feb 2024

Role: SecOps Engineer

Responsibilities:

- Integrate security tools into the CI/CD pipeline to automatically assess and remediate security issues in code.
- Collaborate with DevOps teams to implement security best practices in the development process, resulting in a reduction of security-related incidents in production.
- Establish regular cross-functional meetings to discuss security requirements and updates in ongoing projects.
- Conduct a comprehensive security assessment to identify and prioritize potential vulnerabilities across all systems and applications.
- Reduce the mean time to detect (MTTD) and mean time to respond (MTTR) for security incidents by X%.
- Develop and execute a proactive threat hunting program, identifying and mitigating at least X potential threats before they impact
- Implement automated threat intelligence feeds to enhance the detection capabilities of security tools.
- Publish a quarterly threat intelligence report outlining emerging threats and recommendations for mitigation.
- Enhance the incident response playbook to include specific response procedures for emerging threats.

Company: KPMG

July 2021 to June 2023

Role: GSOC
