3.1 Years (Backend & Automation Testing)

[LinkedIn Profile](#)

Summary

Software developer with 3.1 years of experience in backend development and QA automation. Developed and maintained over 20 APIs, implemented 200+ automated test cases, and reduced regression cycles by 25%. Proficient in FastAPI, Django, Selenium, and Agile methodologies. Skilled in optimizing backend systems and improving CI/CD efficiency.

Skills

Languages & Frameworks

Python
Django
FastAPI
SQL

Tools

Postman
Git & GitHub
Jenkins
JIRA
MySQL

Concepts

REST APIs
OOP
Agile/Scrum
STLC, SDLC
Automation Framework Design

Education

B.Tech, Computer Science Engineering
Chandigarh Group of Colleges,
Landran
Graduated: 2022

Experience

Software Engineer

Impelsys Pvt. Ltd., Bengaluru
Feb 2022 - Apr 2024

Software Developer

Kooz Advisors and Technologies Pvt. Ltd., Bengaluru
Sep 2024 - Jun 2025

Tech Stack: Python, FastAPI, MySQL, Git, Docker

Built and optimized 15+ REST APIs, resulting in 25% faster client-side rendering.

Developed 5 backend APIs using Django to support login and dashboard modules.

Reduced bug rate by 30% by maintaining 90% test coverage in all deliverables.

Enhanced API response times by 20% through database query optimization and indexing.

Collaborated with DevOps to reduce deployment time from 3 hours to under 30 minutes using Docker and CI/CD.

Maintained 10+ microservices in containerized environments, ensuring consistent deployments.

Supported over 100,000 daily users with scalable architecture and fault-tolerant design.

Projects

Koinbx - Cryptocurrency Exchange

Duration: 9 Months

Handled real-time trade execution handling 500+ trades/second with <100ms latency.

Created modules for wallets, transactions, and order matching with 100% integration test coverage.

Improved data refresh rates by 70% using WebSocket-based updates for order book.

Secured user transactions using token-based authentication and multi-factor login.

Managed 10+ database migrations and schema changes with zero downtime.
