PROFESSIONAL SUMMARY

Highly motivated Node.js Developer with 3 years and 8 months of experience in the IT industry. Proficient in developing robust applications using Node.js and a variety of development tools. Experienced in working with relational and SQL databases to ensure efficient data management and retrieval.

KEY COMPETENCIES

- Core experience in API development using NodeJS.
- Collaborated with internal teams to design and develop both front-end and back-end solutions.
- Proficient in cross-browser and cross-platform web development, including HTML, PHP, JavaScript, CSS, and NodeJS, along with familiarity with the latest technologies.
- Possess a basic understanding of ReactJS.
- Skilled in preparing and documenting technical workflows between back-end and front-end solutions.
- Hands-on experience with various databases, including MongoDB and MySQL.
- Proficient in requirement gathering and analysis for new modules.
- Experienced in Agile methodology and the Opencart framework.
- Strong background in SQL operations and RDBMS query aggregations.
- Demonstrated ability to generate innovative ideas and promote knowledge sharing.

TECHNICAL PROFICIENCY

Categories	Technologies
Operating Systems	Windows, Ubuntu
Databases	MySQL, MongoDB
Programming/Scripting Languages	HTML, CSS, JavaScript, Nodejs

PROFESSIONAL EXPERIENCE

Poorvika Mobiles pvt ltd

July 2020 – Present

Project details:

Project title : Payment Admin

Project Duration : July 2020 to October 2023

Technologies Used : Node.js, React.js, Express.js, MongoDB, MySQL

Role : Full Stack Developer.

Description:

Developed a dynamic payment method system for the Poorvika e-commerce website, facilitating easier handling of e-commerce payments and tracking payment history and store details.

Responsibilities:

1. Frontend Development:

- Developed responsive user interfaces using React.js.
- Integrated frontend components with backend APIs to ensure a seamless user experience across devices.

2. Backend Development:

- Built RESTful APIs using Node.js and Express.js.
- Designed and managed MongoDB databases, implementing authentication and data validation.

3. Deployment:

- Deployed applications to cloud platforms and established CI/CD pipelines for deployment.

4. Continuous Learning and Improvement:

- Stayed updated with the latest technologies and best practices.
- Enhanced coding skills through self-learning and training, contributing to personal and team growth.

5. Documentation:

- Documented codebase and API functionalities.
 - Created clear and concise technical documentation, maintaining README files for project setup and usage instructions.
-

Project title : Offers & Coupons
Project Duration : October 2023 to Present
Technologies Used : Node.js, MongoDB
Role : Backend Developer.

Description:

Developed and executed strategic plans for promotional offers and coupons to drive customer acquisition, retention, and sales growth.

Responsibilities:

1. Gathered requirements for promotional offers and coupons.
2. Updated and managed the website.
3. Conducted weekly deployments.
