

Abubakkar Sherif

Multi-Cloud DevOps Engineer | Cloud Automation Specialist

📍 Hometown: Trichy, India | ✉ Email: vnrabu@gmail.com | 📞 Phone: +91 9159971491

🌐 LinkedIn: [linkedin.com/in/abubakkar-sherif-7332bb8a](https://www.linkedin.com/in/abubakkar-sherif-7332bb8a) | 🚀 Availability: Immediate Joiner

Multi-Cloud DevOps Engineer | Cloud Automation Specialist

10+ Years in IT | Expertise in AWS, Azure, CI/CD, IaC, Kubernetes & Security

Dynamic and results-driven Multi-Cloud DevOps Engineer with extensive experience in cloud infrastructure, automation, and DevOps best practices. Proven expertise in AWS & Azure cloud services, Infrastructure as Code (IaC), CI/CD pipelines, containerization (Docker/Kubernetes), and security compliance. Adept at designing scalable, cost-efficient cloud architectures and optimizing automation workflows for high availability and performance. Strong background in RPA and Power Platform, enabling seamless integration of legacy automation with modern cloud-native solutions.

Professional Summary

Results-driven RPA & Microsoft Power Platform Engineer with over 10 years of IT experience, including 7 years specializing in Robotic Process Automation (RPA) using Microsoft Power Platform. Expertise in managing, optimizing, and securing RPA environments, ensuring high availability, performance, and compliance. Proven track record in RPA infrastructure management, automation deployment, troubleshooting, and governance. Skilled in managing BOT server-related issues, collaborating with cross-functional stakeholders, and delivering scalable automation solutions. Adept at streamlining automation processes, enhancing system performance, and driving digital transformation. Currently seeking opportunities to leverage expertise in RPA Automation Support Solutions to create efficient, secure, and high-performing environments.

CAREER TIMELINE

- Dec 2023 – Jan 2025 | KLA Tenor | Multi-Cloud DevOps Engineer| Chennai
- Feb 2020 – Jan 2023 | First Abu Dhabi Bank | Cloud & RPA Automation Engineer| Dubai, UAE
- Aug 2019 – Jan 2020 | FA Software Services Pvt Ltd | DevOps & RPA Support Engineer| New Delhi
- Aug 2016 – Jul 2019 | Radsan Global Trading Services | RPA Automation Developer | Bangalore
- Jun 2013 – Jul 2016 | TCPS IT Services | IT Network Engineer | Virudhunagar

EDUCATION

- Master of Computer Application (MCA) | VHNSN College, MK University – 2013
 - B. Com with Computer Application | VHNSN College, MK University – 2010
-

Core Competencies

☁ Multi-Cloud & DevOps Expertise

- ✓ AWS & Azure Cloud Architecture – Designing, deploying, and managing highly available, scalable cloud solutions.
- ✓ Infrastructure as Code (IaC) – Terraform, AWS CloudFormation, Azure ARM/Bicep for automated provisioning.
- ✓ CI/CD Pipelines – Azure DevOps, GitHub Actions, Jenkins for automated deployments.
- ✓ Containerization & Orchestration – Docker, Kubernetes (EKS, AKS), Helm for microservices deployment.
- ✓ Monitoring & Logging – Azure Monitor, AWS CloudWatch, Prometheus, Grafana for observability.
- ✓ Security & Compliance – IAM, RBAC, Azure Security Center, AWS GuardDuty, CIS Benchmarks.

🤖 Automation & Cloud Integration

- ✓ RPA & Power Platform – UiPath, Power Automate, migrating RPA workflows to serverless cloud (Lambda, Azure Functions).
 - ✓ Hybrid Cloud Automation – Integrating RPA with Azure Logic Apps, AWS Step Functions.
 - ✓ Scripting & Automation – Python, PowerShell, Bash for cloud automation.
-

Professional Experience

KLA Tenor – Chennai (*Jan 2024 – Jan 2025*)

Multi-Cloud DevOps Engineer

- Migrated on-prem RPA workflows to AWS & Azure, reducing operational costs by 30%.
- Designed CI/CD pipelines using Azure DevOps for automated RPA bot deployments, improving release speed by 40%.
- Containerized legacy applications using Docker and deployed on Azure Kubernetes Service (AKS).
- Automated cloud provisioning using Terraform, ensuring consistent multi-cloud environments.
- Implemented centralized logging with Azure Monitor & AWS CloudWatch for real-time RPA bot monitoring.
- Enforced security policies (IAM, encryption) to meet ISO 27001 compliance.

First Abu Dhabi Bank – Dubai, UAE (*Feb 2020 – Jan 2023*)

Cloud & RPA Automation Engineer

- Deployed RPA bots on AWS EC2 with auto-scaling, ensuring high availability.
- Integrated Automation Anywhere with Azure Logic Apps for hybrid cloud automation.

- Optimized cloud costs by right-sizing AWS & Azure resources, saving 20% on cloud spend.
- Managed multi-cloud security (IAM, RBAC, encryption) for GDPR compliance.

FA Software Services Pvt Ltd (Aug 2019 – Jan 2020)

DevOps & RPA Support Engineer

- Built CI/CD pipelines for UiPath bots using Jenkins & GitHub Actions.
- Managed cloud infrastructure (Azure VMs, AWS EC2) for RPA execution.
- Automated server deployments using PowerShell & Bash scripts.

Education & Certifications

🎓 Master of Computer Applications (MCA) – MK University (2013)

🎓 Bachelor of Commerce (B.Com) – MK University (2010)

Certifications (In Progress/Targeted)

- AWS Certified Solutions Architect – Associate (2025)
- Microsoft Certified: Azure Administrator (AZ-104)
- Certified Kubernetes Administrator (CKA)

Technical Skills

Category	Technologies & Tools
Cloud Platforms	AWS, Azure, Google Cloud
IaC & Automation	Terraform, ARM/Bicep, CloudFormation, Ansible
CI/CD & DevOps	Azure DevOps, GitHub Actions, Jenkins, ArgoCD
Containerization	Docker, Kubernetes (EKS, AKS), Helm
Monitoring	Prometheus, Grafana, Azure Monitor, CloudWatch
Security	IAM, RBAC, KMS, Azure Key Vault, CIS Benchmarks
Scripting	Python, PowerShell, Bash

Projects

1. Multi-Cloud CI/CD Pipeline for RPA Bots

- Tools: Azure DevOps, Terraform, AWS CodeDeploy
- Impact: Automated zero-downtime deployments across AWS EKS & Azure AKS, reducing manual effort by 50%.

2. Hybrid Cloud Automation with Azure & AWS

- **Tools:** Azure Logic Apps, AWS Step Functions, Terraform
- **Impact:** Integrated legacy RPA with cloud-native workflows, improving scalability.

3. Cost-Optimized Cloud Migration

- **Tools:** AWS Cost Explorer, Azure Cost Management, Terraform
- **Impact:** Reduced cloud costs by 25% via right-sizing & reserved instances.

Why Hire Me?

- ✓ **Proven Multi-Cloud Expertise** – Hands-on experience with AWS, Azure, and hybrid cloud setups.
- ✓ **DevOps & Automation Focus** – Strong background in CI/CD, IaC, and Kubernetes.
- ✓ **Security-Compliant Deployments** – Expertise in IAM, encryption, and compliance (ISO 27001, GDPR).
- ✓ **Cost Optimization** – Skilled in reducing cloud spend while maintaining performance.
