

# ADITYA CHAVAN

Data Engineer

+91- 8329991303

adityachavan2444@gmail.com

Hinjewadi, Pune

## KEY SKILLS

- Data Pipeline Design and Development
- ETL Performance Optimization
- AWS Services (Redshift, S3, EMR, Secrets Manager)
- ETL Developer Expertise
- Apache Airflow Workflow
- PySpark Data Processing and Scripting
- Redshift Data Warehousing
- Data Partitioning Strategies
- Data Validation and Integrity
- EC2 and RDS Management
- Spark
- Python, MySQL, Boto3
- Bitbucket and Git for Version Control
- Azure DevOps
- Confluence for Collaboration
- PyCharm, VS Code, Jupyter
- Notebook Docker for
- Containerization

## TECHNICAL SKILLS

- AWS Redshift, S3, EMR, Secrets Manager
- Data Hub
- Apache Airflow
- EC2, RDS Management
- Spark
- Python, MySQL, PySpark, Boto3

## TOOLS

- Bitbucket, Git for Version Control
- Azure DevOps for CI/CD
- Confluence for Collaboration
- PyCharm, VS Code, Jupyter Notebook for Development

## PROFESSIONAL SUMMARY

Results-driven Data Engineer with 4.11 years of experience in **designing, developing, and optimizing** data pipelines using a versatile set of technologies. Demonstrated expertise in leveraging **Apache Airflow** for ETL processes, driving enhanced performance, and ensuring the accuracy and integrity of critical data insights. Proficient in **ETL development, data partitioning, and performance optimization** for AWS Redshift data warehouse. Expertise in **PySpark, SQL, data validation**, and leveraging **AWS services** including **Secrets Manager** and **EMR**. Demonstrated leadership in orchestrating comprehensive data strategies to empower informed decision-making.

## EXPERIENCE

Aug 2022- Present

### Data Engineer | CoreView Systems Pvt. Ltd

Projects Undertaken:

Project: ZUZU Hospitality

Domain: Hospitality

Client: ZUZU Hospitality

Technologies: Apache Airflow, AWS Redshift, PySpark, AWS S3, AWS EMR, AWS Secrets Manager, SQL, Python

- Led a high-impact data engineering team in the design, development, and maintenance of intricate (ETL) data pipelines for ZUZU Hospitality powered by Apache Airflow enabling comprehensive revenue, bookings, and property analytics across various data lakes.
- Spearheaded the integration of high-volume data from diverse sources into AWS Redshift, employing advanced data partitioning strategies for optimized performance in critical areas such as room rate adjustments, consolidated pricing, and market insights.
- Successfully streamlined ETL data pipeline processing time through innovative performance optimization techniques, significantly enhancing overall operational efficiency for ETL Jobs.
- Implemented iterative updates to the Redshift data warehouse, effectively improving system performance without disrupting ongoing operations, while also ensuring data consistency and integrity.
- Orchestrated the seamless recreation of the pre-production environment, yielding enhanced data processing efficiency, stability, and a smoother development lifecycle.
- Championed the creation of tailored data pipelines to address unique business needs, translating raw data into actionable insights and empowering data-driven decision-making.
- Collaborated with cross-functional teams to optimize credentials and sensitive code using AWS Secrets Manager, ensuring the highest level of data security.
- Managed complex Redshift fact and dimension tables, integrating iterative updates to accommodate evolving business requirements and maintaining data integrity.

## EXPERIENCE

---

- Engineered complex materialized views within Redshift, contributing to the substantial enhancement of query performance and data access efficiency.
- Developed innovative scripts to load, analyze, and project revenue, booking, and pricing data across multiple years, driving informed business growth strategies.
- Instituted reusable libraries to promote code reusability, streamlining development processes, and bolstering maintainability.

Jan 2020- July 2022

**JLS PVT.LTD | Data Engineer**

**Projects Undertaken:**

**Project: Kohl's - Stores Cloudification**

**Domain: E-commerce**

**Client: Kohl's**

• **Technologies:** SQL, PySpark, Python, AWS/Cloud, SQL Server, Pandas, MySQL, Power BI, GIT, Azure DevOps

- Played a pivotal role in the successful migration of the Kohl's retail analytics platform to the cloud, enhancing data accessibility and enabling data-driven decision-making.
- Leveraged SQL, PySpark, and Python to orchestrate the extraction, transformation, and loading (ETL) of diverse data sources, supporting comprehensive customer behavior analysis and sales optimization.
- Collaborated with cross-functional teams to design and implement call flows, enhancing the usability of customer services and ensuring seamless user experiences.
- Conducted thorough data extraction, organization, and visualization tasks, identifying outliers and trends to facilitate informed decision-making.
- Employed SQL queries for data manipulation and aggregation, contributing to the creation of insightful reports shared with top management.
- Proactively resolved technical issues through debugging and coding support, ensuring the smooth progression of data processes and analytics.
- Conducted data quality assurance, including validation and outlier identification, to enhance the reliability and accuracy of analytical insights.
- Collaborated with user focus groups to optimize call flows iteratively, ensuring maximum user satisfaction and operational efficiency.
- Assisted in the validation and enhancement of Python reports, addressing identified bugs and optimizing deployment.
- Seamlessly interfaced with top management to deliver critical insights and data visualizations, driving strategic decision-making.
- Actively participated in daily scrum meetings, contributing to project alignment and goal achievement.
- Utilized version control tools like Git to manage codebase and facilitate efficient collaboration within the development team.

## DATA SOURCES

---

- S3
- RDS (MYSQL)
- Redshift
- Google Sheets
- (GSheet) Parquet
- CSV

EDUCATION

---

| Degree                  | University              | Passing year |
|-------------------------|-------------------------|--------------|
| Bachelor of Engineering | MIT                     | 2020         |
| 12th                    | Maharashtra State Board | 2015         |
| 10th                    | Maharashtra State Board | 2013         |
