Summary

Experienced **Software Test Engineer** with **5+ years** in **manual and automation testing**. Proficient in **Cypress, Playwright**, and **API testing**, with expertise in building **scalable test automation frameworks** using **JavaScript/TypeScript**. Skilled in **CI/CD integrations, Agile methodologies**, and **cross-functional team collaboration**. Strong in optimizing test coverage, improving product reliability, and ensuring software quality in fast-paced environments.

Experience

Quarks Technosoft Pvt. Ltd. - Senior Quality Engineer

Bangalore, India

10/2024 - 11/2024

Project: Autodesk Customer Portal (web-based internal platform)

- Developed an end-to-end automation framework using Cypress and JavaScript, following the Page Object Model.
- Created reusable helper functions and modular components to handle user roles and account validations.
- Integrated automation scripts into CI/CD pipelines using Jenkins and GitHub Actions.
- Coordinated with developers and QA leads for continuous feedback and faster releases.
- Focused on optimizing test cases for reliability, and reducing manual regression efforts.
- **Tools & Tech:** Cypress, TypeScript, JavaScript, GitHub Actions, Jenkins, Mocha, Faker.js, JIRA.

Aureus Tech Systems - Software Quality Engineer

Chennai, India

02/2024 - 09/2024

Project: Organon Healthcare – E-learning Platform (React + Angular-based)

- Built a scalable Cypress automation framework using TypeScript/Javascript and the Page Object Model.
- Designed test cases for both UI and API validation, covering smoke, regression, and negative test scenarios.
- Used Bitbucket for source control, and Azure Boards for tracking tasks and bugs.
- Interacted with Product Owners and Dev teams in an Agile environment for requirement clarifications.
- Conducted exploratory testing to identify edge-case issues, and critical UI bugs.
- **Tools & Tech:** Cypress, Postman, JavaScript, TypeScript, Bitbucket, Azure Boards, SQL, and RESTful APIs.

Beginner

E-Horizon Software Solution - Software Engineer

Pune, India

06/2019 - 02/2024

Project: Conn's Web Application (Retail E-commerce) | Nov 2021 – Feb 2024

- Developed and maintained automation test suites using Cypress and RESTful API testing tools.
- Validated complex e-commerce flows, including user authentication, checkout, and payment systems.
- Integrated tests into Jenkins CI/CD pipelines for continuous feedback and deployment.
- Collaborated with BAs and developers to ensure test scenarios aligned with real-time use cases.

Project: Poshmark Web Application (E-commerce Marketplace) | Sep 2019 – Nov 2021

- Designed and executed test cases for end-to-end functionality including login, listings, cart, and payments.
- Focused on UI/UX validation, functional testing, and cross-browser compatibility.
- Introduced reusable functions and selector strategies to reduce script maintenance overhead.
- Participated in QA reviews, reporting, and prioritizing production bugs.

Tools & Tech: Cypress, JavaScript, SQL, Jenkins, Postman, GitHub, Manual Testing, and JIRA.
