OBJECTIVE

Experienced **Nodejs Software Developer** with over 2+ years in web development. Proficient in multiple languages and frameworks. Committed to innovation, efficiency, and collaborative success while fostering continuous learning.

EDUCATION

B.E. Electronics and Communication, Sri Ramakrishna Engineering College, CGPA : 7.79 2018 - 2022

Computer Science, Vidyaa Vikas Matric Higher Secondary School, Percentage : 89.25 2016 - 2018

SKILLS

Languages	JavaScript, TypeScript, Core Java, SQL , NoSQL , HTML, CSS
Frameworks/Libraries	NodeJS , ExpressJS, GraphQL, AngularJS, NPM, Yarn, Socket.io
Tools	Postman, Github, SVN, MySQL , MongoDB , Redis, WinSCP, Visual Studio
Platforms	Windows, iOS, Linux, Ubuntu

EXPERIENCE

Software Engineer July 2022 - Present
Matrimony.com *Chennai, India*

- Developed microservices for an **Online Matchmaking Service using Node.js (Express.js)**, Socket.io, and **MongoDB**, enhancing user experience and platform efficiency.
- Led data migration to Amazon S3 Storage, optimizing data handling techniques and improving data accessibility.
- Contributed to optimizing a high-traffic product with over 3 million users, focusing on feature delivery and performance optimization. Utilized Redis Cache server to significantly reduce database hits.
- Experienced in Agile Methodology, actively participating in sprint planning and iterative development cycles. Enabled efficient project management and timely delivery of high-quality software applications.

Software Engineer Intern October 2021 - July 2022
Matrimony.com *Chennai, India*

- Completed training in NodeJS**, ExpressJS, JavaScript, Ionic, Angular, HTML, CSS, **MySQL** and **MongoDB**.
- Developed **proficiency in Frontend and Backend web development**, including **Restful APIs** and CRUD Apps.
- Developed a Full-stack Social Web Application with MEAN Stack + Ionic, incorporating learned technologies.

PROJECTS

View Similar API. Developed a Node.js API enabling users to view similar matchmaking for over 3.5 million profiles, utilizing Redis for efficient database caching and employing tools like Postman for project management and testing.

CBS - BM API Web Integration Led seamless integration between CBS and BM APIs, boosting productivity and revenue generation by 35 percent, ensuring smooth synchronization.

Daily Recommendation Mailers Engineered an automated system for targeted mailers for over 5 million users, enhancing user engagement by providing relevant information through scheduled cron files.

Jodii Revamp 2023 Redesigned vernacular **APIs using Express.js and MongoDB**, with a focus on simplicity and ease of use and integrated AWS S3 for efficient media storage and retrieval.

ACHIEVEMENTS

- Bright Beginner and Round of Applause awards for actively follow up assigned task and status update.
- Secured EUROPE Level A2- Business English Certificate with a preliminary score of 145 conducted by Cambridge University.
