Phone: +91 – 8008994037 (primary), +91 –7989219694

CAREER OBJECTIVE

To associate with a growth-oriented enterprise and strive to achieve the goals of the organization, contemplating sustained individual growth through hard work and self-improvement, in any demanding work/working conditions.

WORK EXPERIENCE

- Currently working as Embedded Software Engineer at **Capgemini Engineering Company**, Bangalore from FEB-2022 to till date for the client **Robert Bosch**.
- Worked as Software Engineer at **BorgWarner**(Delphi Propulsion Systems Private Limited), Bangalore from AUG-2018 to JAN-2022 under payroll of **Cadmaxx Solutions Pvt Ltd**.

PROFILE SUMMARY

- 5+ years of experience as **Embedded Software Engineer in Automotive domain**
- Experience in using a **SDLC model and STLC model**
- Experience in **programming languages like Embedded C and C++**.
- Hands on Specification based testing, Automation testing, Manual testing and Module testing (White box testing)
- Hands on Experience in Analyzing requirement, Test Planning, Test Designing and Execution of Scripts, checking for Coverage and Performing Review
- Good knowledge in **standards and protocols like UDS, J1939 and CAN protocols**
- Good Knowledge on Requirement based testing as well (Black box testing)
- Expertise in performing MCDC and solving compilation issues
- Hands on Experience with Integration Review Result(IRR)
- Expertise in understanding and analyzing the software with respect to the Specification and MODEL
- Experience in testing safety critical software by using cantata and G-test
- Understanding the software requirements, planning, creating test cases as per requirement and executing in the Microsoft visual studio 2019
- Experience in build tools cmake, make/gmake and cross compilation
- Good knowledge on Software version tool like GIT
- Self-driven with strong technical, analytical/problem solving skills
- Good at organization and planning skills
- Extensive experience in test planning/test strategy, test estimates
- End-to-end knowledge and experience in testing.

PROFESSIONAL EXPERIENCE

Capgemini, Bangalore:

DESIGNATION : Associate consultant
DOMAIN : **Automotive**
TENURE : February 2022 to till date
CLIENT : **Robert Bosch**

Cadmaxx solutions Pvt Ltd, Bangalore:

DESIGNATION : Software Engineer
DOMAIN : Automotive
TENURE : 3+ years (August 2018 – January 2022)
CLIENT : BorgWarner

TECHNICAL SKILLS

- Programming Languages : C++ and Embedded C
- Operating Systems : Windows and Linux
- IDE : CANTATA
- Requirement and Defect Tracking Tools : JIRA, RQM, TCG_CQ, TCBL_CQ and Bit Bucket
- Tools/Software : CANTATA, +Microsoft visual studio 2019,
DOORS CC-DA , Eclipse, IBM RTRT, Polyspace R2018a, IBM Clear Case, MATLAB
R2011b(32-bit), Plastic SCM, Notepad++ ,G-test and Git hub

PROJECT SUMMARY

Projects: VW GAS, CTC, DAF, HMC, PSA, SYMC, Generic, Volvo and ASIA PACIFIC

Client	Borgwarner, Bangalore
Role	Software Engineer
Organization	Cadmaxx solutions Pvt Ltd, Bangalore.
Team Size	11
Tools	Eclipse, IBM RTRT, Polyspace R2018a, IBM Clear Case, MATLAB R2011b(32-bit), Plastic SCM, Notepad++.
Requirement and Defect Tracking Tools	TCG_CQ, TCBL_CQ and JIRA
Hardware Interfaced	Fuel Injectors, Sensors, Fan drives, Coolant heaters etc.,
Languages	Embedded C
Duration	Aug -2018 to Jan-2022

Description:

This Project deals with ECU (Electronic control Unit) components communication using the communication protocols like CAN, J1939 and UDS. ECUs are Embedded systems that manipulate and controls how automotive engines operate.

Roles & Responsibilities:

- Performing static testing and developing using poly space analysis
- Performing Unit testing as well as developing for the specifications by writing test cases in Ptu format and executing them using the tool RTRT
- Worked as a team player with effective communication and interpersonal skills in different projects like VW GAS, CTC, DAF, HMC, PSA, SYMC, Generic, Volvo and ASIA PACIFIC
- Analyzing and reporting bugs as per the strategy

- Good hands on experience in analyzing critical compilation errors with the help of POLYSPACE tool
- Experience in mentoring and guiding the new team members
- Failure analysis and Reporting as per Strategy
- Performing Review analysis and Coverage analysis
- Expertise in Automation testing with the help of MATLAB R2011b(32-bit) for simulation purpose.
- Hands on experience in Microcontroller and Knowledge in RTOS.

Project : ADAS: AUDI, FIAT, STALANTIS Cars

Client	Robert Bosch, Bangalore
Role	Associate Consultant (V & V Engineer)
Organization	CAPEGEMINI, Bangalore.
Team Size	5
Tools	Cantata, G-Test, Microsoft visual studio 2019, DOORS CC-DA and Task Management
Requirement and Defect Tracking Tools	JIRA, Bitbucket and RQM
Hardware Interfaced	Brakes, Rotors, Head lights, Custom wheels, Tires etc.,
Languages	C and C++
Duration	Feb -2022 to till date

Description:

Working on Software testing and Unit Testing in C & C++ for ADAS system in Cars.

ADAS system is an advanced driver assistance system is a group of electronic technologies that assist drivers in driving and parking functions pedestrian detection/avoidance, Lane departure warning/correction. Traffic sign recognition, Automatic emergency braking and Blind spot detection.

Roles & Responsibilities:

- Performing Software Development, Software Testing and Unit Testing for the components like FCT_CF, SIT & PER for Audi Gen5 project, FIAT and STALANTIS with the help of tools Cantata, G-Test, Microsoft visual studio 2019 and DOORS CC-DA .
- Knowledge of relevant programming frameworks and libraries used in development.
- Performing review inspection for the requirement mentioned in DOORS CC-DA.
- Analyzing the Requirements, Planning, developing the test cases, debugging, raising observations or OPL or defects and checking for MCDC Coverage for ASIL-B Safety level.
- Report generation with the help of Task management tool.

- Comparing source code with header file and finding the mismatches and then reporting in the format of OPL(Open point list).
- Maintaining Quality of testing as per the strategy.
- Understanding of conducting safety analysis, verification, and validation activities to ensure that the SW platform meets the specified safety requirements.
- Performing regression activity for all the requirements involved in one module.
- Solving critical build issues in emulator files with the help of tool CANTATA
- Able to solve most critical technical issues while performing Software testing with the help of debugger.
- Experience in using the defect tracking tools like JIRA, Bitbucket and RQM.
- Hands on Embedded testing (HSIT & UT) with testing techniques ECA and BVA.
- Good Knowledge on Scripting languages like C++ and Embedded C.
- Problem solving and analytical thinking abilities.

PROFESSIONAL QUALIFICATION

Completed a course in **Advanced Diploma in Real Time Embedded System in VECTOR INDIA Institute**, Hyderabad.

ACADEMIC PROJECT: Arduino based WSN using Nordic NRF technology for monitoring harmful gases in coal mines.

Description: The system uses Arduino Based WSN using Nordic NRF technology to establish wireless sensor network, which is suitable for operation in harsh environment. It monitors surrounding environmental parameters such as temperature, humidity and multiple toxic gases, it also provides early warning through buzzer which helps miners present inside the coal mines to save their life.

MINI PROJECT: Luxury goods commodity tagging for stock updating

Description: The object of this project is to explore emerging automatic identification technologies (such as RFID) as a way to improve the quality of services provided by retailers at various convenience stock market and to augment the consumer value. This system saves customers from embarrassing situations a cash counter by pre hand calculation of their total bill (including discounts) by themselves using the trolley(which is carrying their goods).

EDUCATIONAL DETAILS

- Bachelor's Degree in Electronics & Communication Engineering with 71.2% from GATES Institute of Technologies (Gooty), Anantapur.
- Studied Intermediate (10+2) from Sri Vivekananda Junior College, Anantapur with 92.6% in year 2013.
- Studied X from Oxford English medium School, Anantapur with 85.6% in year 2011.

PERSONAL DETAILS

Date of Birth : 29th July, 1996
 Nationality : Indian
 Languages Known : English, Telugu
 Marital Status : Married
 Communication Address : West Narasapuram (vill&post)
 Singanamala(Mandal), Anantapur(Dst), Andhra Pradesh.
 Pin code - 515435

I hereby declare that the information and particulars stated above are true and correct to the best of my knowledge and belief.
