EDUCATION

B. Tech. - Computer Science and Engineering

Indian Institute of Information Technology Kota || Jaipur, Rajasthan || 2018 - 2022

IIIT Kota is guided by Malaviya National Institute of Technology (MNIT Jaipur)

- Final Year Major Project (2021) - Weather Forecasting Model (using python libraries on the local data collected by sensors)
- Relevant courses - Object Oriented Programming System, Data Structures and Algorithms,
- Artificial Intelligence, Machine Learning, Database Management System

PROFESSIONAL EXPERIENCE

Senior Executive Engineer - Machine Learning

Samsung Data Systems India Pvt. Ltd. || Gurugram, Haryana || May 2022 - Present

Demand Planning Model (Tech - Pandas, Seasonal Arima, EDA, SQL, IBPL)

- The project focus on the Exploratory DA of demand growth.
- Statistical analysis, seasonal analysis, comparing based on QoQ and YoY
- Developing the forecasting model with defined seasonal components for the ARIMA model
- Regularly making necessary updates and monitoring for change in the trend.
- Conduct regular sophisticated presentation addressing current factors and possible future trends

Demand Data Transformation Pipeline (Tech - Pandas, Pyspark)

- The project focus on developing a functionality suitable for the input data format
- Transform and prepare the data for further seasonal analysis and model training

Customer Relationship Monitoring (Tech - Python, Pandas, SQL)

- The project focus on customer identity monitoring
- The customers must have all the mandatory identity fields into the system and further generate an automated notification

Key Achievements

- Achieved a client satisfactory score (CSAT) of 87.5 percent with team's appropriate deliverables

Software Engineer Intern

Samsung Data Systems India Pvt. Ltd. || Gurugram, Haryana || Jan 2022 - May 2022

Internal Trainings

- Attend internal training for cloud technologies for Customer Relations, Supply Chain
- Developed a fully functional Analytics model on the import data on an electronic device maker firm (Tech - SQL, python)

Key Achievements

- Certified Advanced level Problem Solver, proving skills in Data structure and algorithms (DSA)

TECHNICAL SKILLS

Programming Languages	Python, C++, Java, Javascript
Database Languages	SQL, IBPL, MySQL, SQL Server, Postgres
IDE	Jupyter, Eclipse, Visual Studio Code, O9 Plugins
Python libraries	pandas, numpy, matplotlib, seaborn, pyspark, scikit-learn, arima, statsmodel
Local Data Editor	Advanced Excel, Power Query

CERTIFICATIONS

- Career Essentials in Data Analysis - Microsoft and LinkedIn
- Career Essential in Generative AI - Microsoft and LinkedIn
- Data Science Professional Course completion certificate - Coding Invaders
- Software Certification (Advanced problem solving) - Samsung

AWARDS & RECOGNITION

- Achieve 5/5 (Excellent) in Samsung's yearly rating 2024.
- Team nominated for the best team of the year award 2024.

OTHER INTERESTS

- Reading books
 - The Intelligent Investor (by Benjamin Graham), Multipliers (by Liz Wiseman)
- Video Editing
 - Manage social handles and edit video for YouTube channel - @rubykivegkitchen
- Analysing Data (publicly available on Kaggle website)
 - Work uploaded on Github
