Work History

November 2024 -
Current

Senior Software Test Engineer

Senovag India Private Limited, Bangalore

End-to-End Integration in Sericulture refers to the complete process of sericulture (silk farming) from the cultivation of mulberry plants to the production of finished silk products. The integration focuses on streamlining all activities, ensuring the entire value chain operates efficiently and productively, with improved quality and reduced costs.

Roles and Responsibility

- Design and develop automation test scripts
- Identify and prioritize test cases for automation
- Create and maintain automation test frameworks
- Maintain and update test scripts as the application evolves
- Provide detailed test reports and document test cases
- Manage test data for data-driven testing
- Analyse test results and suggest improvements
- Participate in agile ceremonies and collaborate with cross-functional teams

March 2024 - November
2024

Software Test Engineer

Meru Info Solutions, Bangalore

PROJECT: - Application for Issue of New/Renewal with modifications of Student Bus Pass

The **Student Bus Pass** for school children offered by **KSRTC (Karnataka State Road Transport Corporation)** is a cost-effective option for students who require regular transportation for an entire academic year. This pass provides unlimited travel for students within the specified validity period (typically 10 months), making it an ideal option for school children who need to travel to and from their educational institutions.

PROJECT: - Application for Corrected Diploma Certificate

An **Application for Corrected Diploma Certificate** is a formal request made by a student or graduate to the educational institution to correct errors or inaccuracies found on their original diploma certificate. These errors could be related to personal information (such as name, date of birth, course details, etc.) or academic details (such as degree name,

marks, or graduation date) that were mistakenly printed.

Roles and Responsibility

- Involved in preparation of Test cases and testing the application
- Involved in smoke, Unit/functional testing, Integration testing, System testing, retesting, and regression testing
- Involved in writing and Execution of Test cases
- Involved in the preparation of bug reports
- Co-coordinating with the development team
- Design and develop automation test scripts.
- Identify and prioritize test cases for automation.

May 2022 - February
2024

Software Test Engineer

EpicMinds, Bangalore

PROJECT: - Ganga Kalyana Yojane

The **Ganga Kalyana Yojane** is a significant government initiative launched by the **Karnataka Government** to provide **irrigation facilities** and **improve agricultural productivity** for the **Scheduled Caste (SC)** and **Scheduled Tribe (ST)** farmers in the state. The scheme aims to address water scarcity issues and promote the economic empowerment of marginalized communities by offering financial assistance for **individual borewells** and **irrigation infrastructure**.

PROJECT: - Gruhajyoti yojane

Gruhajyoti is a government scheme launched by the state of **Karnataka**, India, aimed at providing **free electricity connections** to **people of Karnataka households** in rural and semi-urban areas up to 200 units. The scheme is designed to ensure that people of Karnataka access to reliable electricity, which is essential for improving the quality of life and supporting economic development.

PROJECT: - Gruhalakshmi yojane

Gruhalakshmi Scheme is a welfare initiative launched by the **Government of Karnataka** to provide **financial assistance** to economically backward women, especially from **Scheduled Castes (SC)**, **Scheduled Tribes (ST)**, and **Other Backward Classes (OBC)**, for setting up their own **self-employment ventures**. The scheme aims to empower women, particularly those from rural areas, by helping them become financially independent and capable of supporting their families.

Roles and Responsibility

- Involved in preparation of Test cases and testing the application
- Involved in smoke, Unit/functional testing, Integration testing, System testing, retesting, and regression testing
- Involved in writing and Execution of Test cases
- Involved in the preparation of bug reports
