EDUCATION

2018

B.Tech/B.E.

Shaheed Bhagat Singh College of Engineering and Technology, Ferozepur

WORK EXPERIENCE

Dec 2021 - Present

Data Analyst (Associate-2)

MediaMint (Client: Pinterest)

Utilized SQL, Google Sheets, Salesforce, and Tableau to analyze large datasets, supporting Pinterest's data-driven decision-making. Created and maintained interactive dashboards, visualizing key performance indicators (KPIs) such as case volume, SLA performance, and utilization rates. Streamlined data cleansing, validation, and quality assurance processes, ensuring data accuracy for high-stakes decision-making. Collaborated with teams to improve user engagement by developing data-driven strategies that align with Pinterest's goals. Key Projects: Pinterest Dashboard Optimization: Optimized the existing dashboard, reducing report generation time by 30% and improving data accessibility for stakeholders using Tableau. Ad-Hoc Reporting: Designed custom reports for internal teams, enhancing client satisfaction by 20% through improved data clarity. KPI Monitoring System: Developed automated systems for real-time monitoring of KPIs, increasing operational efficiency by 25%.

- Hindi

Conducted deep data analysis using SQL and Advanced Excel to interpret results from SHL’s flagship product AMCAT, used by 2,000+ companies for candidate selection. Designed and maintained interactive dashboards, visualizing performance metrics of AMCAT and other SHL offerings like coding tests and mock interviews. Collaborated with product teams to develop predictive models, improving the accuracy of candidate assessments and enhancing the recruitment process. Key Projects: AMCAT Data Analysis: Improved the accuracy of candidate selection by 15% through advanced data analysis and optimization of predictive models in SQL. Dashboard Implementation: Developed real-time dashboards using Tableau, enabling better strategic decision-making and reducing operational inefficiencies. Predictive Model Enhancement: Built a predictive model in SQL that improved candidate evaluation accuracy by leveraging historical test data.

Projects

6 Months

Samsung (Current Project)

- Implemented monitoring and reporting processes for advertising campaign performance using metrics such as line items, issue keys, pacing percentages, and campaign timelines to evaluate efficiency and ensure accurate billing.
- Tracked and analyzed the performance of individual components of campaigns (e.g., ads, creatives) using line items.
- Utilized unique identifiers in Jira for tracking campaign-related issues, ensuring comprehensive monitoring and issue resolution.
- Assessed campaign progress by comparing actual vs. planned delivery to maintain optimal pacing percentages.
- Managed campaign timelines effectively to track project milestones and ensure timely delivery.
- Leveraged DOMO for generating insightful dashboards and trend analysis to drive data-driven decision-making.
- Utilized Trader for efficient management of ad inventory and real-time delivery monitoring.

- Employed Jira as a collaborative tool for issue tracking and resolution to enhance campaign performance.

COURSES & CERTIFICATIONS

- Google Data Analytics Certificate
- 5-star SQL certification on HackerRank
