

Rahul Maske

AWS Certified Solutions Architect | DevSecOps & Cloud Engineer

 **Email:** rahul.maske05@outlook.com |  **Contact:** 7709071251

 **Current Location:** Pune | **Willing to Relocate:** Yes

Career Objective

AWS Certified Solutions Architect and DevSecOps Engineer with 3+ years of expertise in cloud infrastructure, CI/CD automation, and security integration. Passionate about optimizing cloud security, Kubernetes orchestration, and scalable infrastructure to drive operational excellence in fast-paced environments.

Profile Summary

- 3+ years of experience in Cloud Infrastructure, DevSecOps, CI/CD, and Security Automation.
 - Strong expertise in AWS, Kubernetes, Terraform, Jenkins, GitLab CI/CD, and security tools like SonarQube, OWASP ZAP, Trivy, and HashiCorp Vault.
 - Hands-on experience in Infrastructure as Code (IaC), deployment automation, and Kubernetes security hardening (OPA, Kyverno, Aqua Security).
 - Skilled in monitoring and observability using Prometheus, Grafana, and ELK Stack.
 - Strong knowledge of cloud security, IAM policies, and compliance frameworks.
-

Professional Experience

Mobicool Software Solution (Dec 2023 – Present)

Role: DevSecOps Engineer

- Designed and automated secure DevSecOps pipelines to streamline vulnerability detection and remediation in CI/CD workflows.
- Integrated **SAST, DAST, and SCA tools** such as **SonarQube, OWASP ZAP, and Trivy** into CI/CD.
- Enforced IAM policies, RBAC, and cloud security frameworks to enhance security posture.

- Implemented Kubernetes security hardening techniques with **OPA, Kyverno, and Aqua Security**.
- Developed **incident response playbooks** and automated security scanning processes.

Outworks Solutions Pvt. Ltd. (Nov 2022 – Jul 2023)

Role: Cloud Ops Support Engineer (*Client: Unity Small Finance Bank*)

- Managed CI/CD pipelines with **Jenkins, Git, and Maven** for seamless deployments.
- Implemented **GitOps** with **ArgoCD** to automate deployment and configuration management.
- Automated AWS infrastructure deployment using **CloudFormation** and best practices.
- Deployed and maintained **multi-account AWS environments** using AWS Control Tower.
- Implemented and managed AWS security policies for **IAM, EC2, EKS, and S3**, ensuring compliance with industry standards.

NITS Global (Oct 2021 – Nov 2022)

Role: Cloud Engineer (*Client: Lexicon Network*)

- Automated AWS infrastructure provisioning using **Terraform & CloudFormation**.
- Deployed and managed applications on AWS (**EC2, S3, RDS, VPC, IAM, Aurora, DynamoDB**).
- Implemented **CI/CD pipelines** with **Jenkins, GitLab CI/CD, and Azure DevOps**.
- Managed **containerized applications** using **Docker, Kubernetes, and OpenShift**.
- Configured and optimized **Prometheus, Grafana, and ELK Stack** for centralized logging, real-time monitoring, and alerting.
- Applied security best practices using **HashiCorp Vault and AWS Security Hub**.

Key Projects

DevSecOps Pipeline for Secure Application Deployment

Company: Mobicool Software Solution | **Duration:** Dec 2023 – Present

- Built an end-to-end **DevSecOps pipeline** integrating **SAST, DAST, and SCA security scanning**.

- Automated **IAM role assignments** and **secrets management** using **HashiCorp Vault**.
- Deployed container security policies using **OPA and Aqua Security**.
- Improved security compliance through **AWS Security Hub monitoring**.

Banking Infrastructure Creation

Client: Unity Small Finance Bank | **Duration:** Nov 2022 – Jul 2023

- Managed **multi-account AWS environments** with **AWS Control Tower**.
- Automated **account provisioning** using **CloudFormation & Service Catalog**.
- Configured centralized logging and security auditing using **AWS CloudWatch, AWS Config, and ELK Stack** to ensure compliance with financial regulations.

Web Application Deployment

Client: Lexicon Network | **Duration:** Oct 2021 – Nov 2022

- Developed **CI/CD pipelines** integrating **Jenkins, SonarQube, Nexus, and GitLab CI/CD**.
- Automated **infrastructure provisioning** using **Terraform and Ansible**.
- Deployed and monitored applications with **Kubernetes, Prometheus, and Grafana**.

Technical Skills

Cloud & DevOps: AWS, Azure, Docker, Kubernetes, OpenShift

CI/CD & IaC: Jenkins, GitLab CI/CD, Terraform, CloudFormation, Ansible

Security & Compliance: SonarQube, OWASP ZAP, HashiCorp Vault, OPA, Kyverno, Aqua Security

Monitoring & Logging: Prometheus, Grafana, ELK Stack

Scripting & Automation: Python, Shell Scripting

Version Control: Git, GitHub, GitLab

Education

 **Bachelor of Engineering (B.E.)**

Certifications

 **AWS Certified Solutions Architect - Associate**

 **(In Progress) AWS Certified DevOps Engineer - Professional**
