WORK EXPERIENCE

Sep 2024 – Jan 2025-Manuh Global Technologies

Mar 2024 – Aug 2024-DTDC Express Private Limited

July 2021 – Jan 2024-Cognizant Technology Solutions

June2019-July2021– HTC Global services

TECHNICAL SKILLS

- Selenium WebDriver
- Automation Testing
- Core Java
- Rest Assured
- Cucumber (BDD)
- TestNG
- HP-ALM
- API Manual Postman
- GIT
- SQL

PROJECT EXPERIENCE

Company: Manuh Global Technologies

Project: PEARSON- Personalized Learning Analytics-Minerva

Domain: Elearning

Roles and Responsibilities

- Test Automation and manual execution
- Create Test requirements and test scenarios
- Worked on HP-ALM, and map releases and cycles with user-stories , defects and test cases..
- Logged appropriate defects in JIRA
- Given demos to clients on our applications during Sprint review.
- Worked on Microsoft Azure for database validation
- Raised project risks on time and avoided unnecessary delay

Tools used: JAVA, SELENIUM , Rest Assured, TestNg, JIRA, Postman, AWS

Project Title: Personalized Learning Analytics-Minerva:

- Test Strategy and Test case design using the LUCID chart and contracts
- Perform functional testing for the sprint userstories and perform sanity on a daily basis.
- Attend agile ceremonies and active participation in client interactions.
- Participated in Sprint Planning Process and refining processes.
- Analyzing and Understanding user stories and acceptance criteria.
- Identifying the test scenarios that need to be automated.
- Performed in-sprint automation and scripted automation tests and maintained 100% coverage
- Prepared feature scenarios and automation scripts in Selenium with TestNG
- Executed and debug test scripts.
- Analyze failures in Daily prod sanity and raised defects if needed
- Performed API testing in POSTMAN tool and fixed Rest API script for 120 cases
- Performed defect tracking and management in **JIRA**.
- Track Bug Report to its closure. Logging Defects in Defect tracking tool for failed scenario & retesting it on Previous build.
- Involved in all levels of **Agile** starting from test planning to retrospective meeting.
- Tracked MSP hours for all PLA members and tracked billing hours of each individuals
- Used MS-SQL to perform validation in database.

=====

Company: DTDC Express Limited

Project: Tracking Modernization

Domain: Logistics

Roles and Responsibilities

- Requirement analysis and testcase preparation based on the requirements
- Test execution and documentation of test results
- Perform mobile testing for pickup and delivery features
- Work with dev and data analytics teams for modernization of tracking
- Validate data transformation from old db to new db.

- Log defects in JIRA when the features deviate from requirements and defect retesting
- Giving demo to the portfolio managers.
- Perform Regression and sanity testing

Company: Cognizant Technology Solutions

Project: Lincoln Financial Groups

Domain: Insurance

Roles and Responsibilities

- Analyzing design documents (Use Cases)
- Create Test requirements and test scenarios
- Daily interaction with developers and BA's on requirement updates and new business updates.
- Validated documaker features and customer rule exceptions on leave and disability claim creations
- Logged appropriate defects in JIRA
- Executed queries using SQL
- Performed Defect Retesting and closing of appropriate defects
- Took leadership roles in completing the milestone on time
- Understanding the Requirements and Functional Specifications of the Project
- Performed various black box testing Methodologies like **Functionality Testing, Usability Testing and Regression Testing.**
- Experience in Agile methodology
- Participated in Sprint Planning Process and developing Test Plan.
- Analyzing and Understanding user stories and acceptance criteria.
- Identifying the test scenarios that need to be automate
- Prepared and executed Test Cases as per System Requirements and User Stories.
- Prepared feature scenarios and automation scripts in Selenium with **Cucumber**

Tools used: JAVA, SELENIUM, Cucumber, JIRA, CORRESPONDANCE ADMIN TOOL, CYBERARK

Company: HTC global Services

Project: ETSY-PVS INTL

Domain: E-Commerce

Roles and Responsibilities

- Test analysis and test case preparation
- Identify defects and retesting once fixed.
- Raise defect in JIRA and follow ups through comments
- Perform functional testing for the sprint userstories and perform sanity on a daily basis.
- Attend agile ceremonies and active participation in client interactions.

- *Participated in Sprint Planning Process and refining processes.*
- *Identifying the test scenarios that need to be automated.*
- *Sending daily status report and weekly status report to lead and manager.*
- *Adding testcases to automation suite at the end of sprint*
- *Involved in sprint planning and grooming sessions*

Tools used: JAVA, SELENIUM, BDD-CUCUMBER, SQL, Postman
