

Rajat Kumar Sahu

Organisation: HCL TECHNOLOGIES

Ph: (+91)-7536931208)

Email: rajatsahucloud@gmail.com

Professional Summary:

A highly skilled Azure DevOps Engineer with 4+ years of experience in automating cloud infrastructure and implementing CI/CD pipelines on Azure. Expertise in leveraging tools like Terraform, ARM templates, and Azure Resource Manager (ARM) for Infrastructure as Code (IaC) solutions. Proficient in containerization and orchestration using Docker and Kubernetes. Strong background in automating deployment processes, version control management with Git, and implementing monitoring and logging solutions using Azure Monitor, Prometheus, and Grafana. Skilled in enhancing system performance, ensuring scalability, and maintaining high availability. Adept at collaborating with cross-functional teams to drive continuous improvement in software delivery and DevOps practices.

TECHNICAL SKILLS:

DevOps

CI/CD Tool	Jenkins, Azure DevOps
Build Tool	Maven, NodeJS(Basics)
Container Management Tool	Azure Kubernetes Service, Kubernetes
Source Code Management	Git, Bitbucket
IAC Tools	Ansible & Terraform
Language	Java, Python
Containerization Tool	Docker
Ticketing Tool	JIRA
CMS Tools	AEM
Knowledge Management Tool	Confluence
Code quality check Tool	SonarQube
Operating System	Windows, Linux
Cloud Platform	Azure Cloud

WORK EXPERIENCE:

HCL Technology India Limited

Jan 2021 - Present

Designation: Associate Consultant

- Deployment to AKS (azure Kubernetes service)
- Azure infrastructure management
- Experience in creating continuous integration & continuous deployment pipelines from scratch
- Good hands-on experience in Docker files and docker images
- Integrate various tools across CI/CD stages such as Nexus, SonarQube, and Git as per requirement
- Using Maven for building applications & AEM
- Used Nexus for artifact management
- Performed security checks for vulnerabilities on source code using OWASP Dependency checks
- Experience in creating CI/CD Pipelines in Azure DevOps
- Artifacts management using Azure artifacts in Azure DevOps
- Basic knowledge of Java, Python & Adobe Experience Manager.
- Deployments using Argo CD
- Used Terraform for Infrastructure provisioning and resource creation
- Worked on SonarQube & Gitlab integration
- Worked on Azure functions
- Created & worked on AKS Cluster

PROJECTS:

Project 1	Fiserv
Organization	HCL Tech
Tools & Technology Used	Jenkins, Git, SonarQube , Linux, Java, JIRA, Confluence, Docker
Role	DevOps Engineer
Responsibilities	-Build continuous integration & continuous deployment pipeline using Jenkins -Writing Docker files for docker images to be used for application deployment -Manage source code repository using GIT -Integrate Code quality tools like SonarQube -Creating a dashboard using Grafana for monitoring -Prepare high level documentation explaining Installation & Configuration. -Support engagements to fix P1 issues during critical deliveries/releases -Creating Gitlab webhooks for automating Jenkins jobs -Using JIRA tool for ticket tracking -Mentoring freshers/new joiners in team

Project 2	Barracuda Corp
Organization	HCL Tech
Tools & Technology Used	Azure DevOps, Terraform, Maven, Azure artifacts, GITHUB, AKS Cluster,Bitbucket
Role	DevOps Engineer
Responsibilities	-Creation of a new CI/CD pipeline from scratch in Azure DevOps -Deployments to AKS -Azure Infrastructure Management -Using maven for building the projects -Managing artifacts using Azure Artifacts -Using Terraform to provision resources -Integration of tools like SonarQube -Adding Linux VM as an agent for running pipelines -Creating and managing AKS Cluster in Azure -Provisioning Azure VMs Using Terraform

Project 3	Eaton
Organization	HCL Tech
Tools & Technology Used	Azure DevOps, Terraform, Maven, Azure artifacts, GITHUB, AKS Cluster
Role	DevOps Engineer
Responsibilities	-Creation of a new CI/CD pipeline from scratch in Azure DevOps -Deployments to AKS -Azure Infrastructure Management -Using maven for building the projects -Managing artifacts using Azure Artifacts -Using Terraform to provision resources -Integration of tools like SonarQube -Adding Linux VM as an agent for running pipelines -Creating and managing AKS Cluster in Azure -Provisioning Azure VMs Using Terraform

Certifications & Awards:

- **Microsoft Certified: Azure Fundamentals**
- **Hero Of the Cluster** -> Received for good work performance in the project

EDUCATION:

- | | | |
|---|----------|------|
| • B.Tech From CV Raman College Of engineering , Bhubaneswar (Odisha) | 8.3CGPA | 2019 |
| • Intermediate JL N Memo Sr. Sec. School,Dhanbad,Jharkhand | 71.4% | 2014 |
| • 10th Dhanbad Public School (CBSE Board) ,Dhanbad,Jharkhand | 9.8 CGPA | 2012 |
