Objective

Results-driven Software Developer with 3.3 years of experience in designing and delivering responsive, high-performance UI components using Angular. Skilled in developing real-time application, specifically in the TCS BaNCS domain, with a focus on scalability, accessibility (WCAG compliance), and RESTful API integration and optimizing UI performance to enhance user experience.

Technical Skills

- Angular | JavaScript | TypeScript | HTML | CSS | SCSS | angular-material | Bootstrap
- RxJS | NgRx | RESTful APIs
- Git | Agile Methodologies
- Jasmine | Unit Testing | Performance Optimization

Experience

Tata Consultancy Services (Feb 2022 - Present)

Angular Developer

- Extensive experience in front-end development using Angular.
- Strong problem-solving and analytical skills for efficient debugging and support.
- Worked closely with UI/UX designers to develop responsive and user-friendly applications.
- Implementing reusable Angular components for improved efficiency.
- Integrated REST APIs and optimized performance using caching strategies.

Projects

Project: Online Account Onboarding – Central Trust Bank (May 2024 - present)

Role: Frontend Developer

Skills: Angular, RxJS, NgRx, REST API, TypeScript

Description: Developed a secure and responsive banking application using **Angular 17**.

Responsibilities:

- Worked as a Frontend Developer, focusing on building a responsive banking application.
- Designed and implemented responsive UI components using Angular and RxJS for dynamic data handling.
- Utilized NgRx for efficient state management, ensuring maintainability and scalability of the application.
- Collaborated with backend developers to integrate RESTful APIs, ensuring seamless data flow and performance optimization.
- Participated in code reviews, debugging, and performance tuning to enhance application quality.

Project: Canadian Imperial Bank of Commerce (CIBC) Canada Client (February 2022 to April 2024)

Role: Frontend Developer

Skills: Angular, TypeScript, HTML, CSS, REST API Integration

Description: Developed a secure and responsive banking application using **Angular 13**.

Responsibilities:

- responsible for building a responsive application.
- Implemented form validation, state management, and optimized API calls.
- Applied lazy loading and route guards to optimize performance and secure application routes.
- Developed dynamic UI components to track inventory status and automate reporting using Angular.
- Improved system usability and reduced manual error rates by 20% through intuitive UI/UX enhancements.
- Participated in sprint planning, requirement analysis, and code reviews in an Agile environment.
- Focused on code optimization and reusable components for better performance and scalability.

Education

Bachelor of Technology in Electrical and Electronics Engineering (EEE) Siddartha Institute of Engineering and Technology| 2017 – 2020

Candidate Name	Abhinay
TECHNICAL SKILLS	Experience
Angular (6+)	3.3 years
JavaScript	3.3 years
REST API	3.3 years
HTML5, CSS3	3.3 years
Bootstrap	3.3 years
Angular 9/11/12 Features	3.3 years

Candidate Name	Abhinay Chepuri	Company Name
Passing Year	B. Tech 2022	
1 st Job	Feb 2022 - Present	Tata Consultancy Services
