

Name: Abhishek Bhatt
Email: abhishek19bhatt@gmail.com
Mobile No: 8503870474, 8630233373

Career Objective

Actively looking for an opportunity where I can use my experience & skills for the successful execution of the project.

Technical Summary

Language	: VHDL, Verilog, System Verilog (Basic), C, C++, Perl (basic)
Methodology	: VVM, UVM(Basic)
Knowledge	: RTL Designing and Verification, Embedded System via Atmega8L
Operating System	: Windows, Ubuntu
Tools Used	: Questasim, Xilinx ISE, Vivado, MATLAB/Simulink using System Generator (Model-based design & verification), Zynq 7 series & Virtex 4(FPGA), Microblaze, Codevision-AVR, Proteus, IBM DOORS.
Protocol	: I2C, SPI, AXI, RS422, LVDS, ARINC 818
Standard	: DO-254, MIL 1553

Experience Summary

- Worked in Tempsens Instruments Pvt Ltd, Udaipur from March to September 2016 as a Calibration Engineer for the calibration of thermal sensors both offsite & onsite.
- Worked in CSIR_NAL, Bangalore from July to November 2018 as Project Assistant Level-2 for Flight Data Analysis, Data Segmentation, Flight Path Reconstruction using Kalman Filter, Derivative Estimation, Model Validation & Documentation of results via MATLAB.
- Worked in Robert Bosch (RBEI), Bangalore on behalf of Transcal, Bangalore from July 2019 to June 2020 as a Test & Calibration Engineer for testing of an Electronic Control Unit (Vehicle) in an Altitude chamber, EMI-EMC, visual inspection & failure analysis of an ECU.
- Recently worked in DRDO, Dehradun on the behalf of Processware System Pvt Ltd, Bangalore from March 2021 till September 2023 as a Hardware Design Engineer involved in the Projects such as Modem and Image Processing Unit card of LRU & detector unit, Design algorithm on MATLAB for Image processing unit card, RTL implementation on FPGA via Xilinx ISE & Vivado tools. Designing & Validation (IV&V documentation on IBM DOORS for requirement traceability as per DO-254 std.) of FPGA-based airborne firmware system.

Training Attended

Organization: HCL-CDC, Bhopal (M.P.), DRMZ-TECH, Bhopal (M.P.).

Training Title: VLSI Designing (HCL-CDC), Embedded System using Atmega8L microcontroller (DRMZ-TECH).

Training Projects

Project 1:

Project Name: Ultra-Sonic Path Finder using Microcontroller-Atmega8L.

Description: Through the module, we can measure the distance between two objects i.e., one is our Module & another object to which distance is to be measured with remote sensing

using an Ultrasonic Sensor.

Roles and Responsibilities:

- Development of PCB & assembling of different devices on it.
- Code burning on Microcontroller via Codevision-AVR.

Project 2:

Project Name: Design & Verification of I2C protocol module based on FIFO concept.

Description: Design of an Interfacing module that follows I2C protocol based on the FIFO concept.

Roles and Responsibilities:

- The development of the verification environment is done in System Verilog.
- Generated functional and code coverage for the RTL verification on Questasim.

Education Qualification

- Completed Bachelor of Engineering in Electronics and Communication Engineering from VNS Group of Institutions, Bhopal (2011-2015) with 71.40%.
- Intermediate in MPC from St. Paul Sr. Sec. School, Udaipur (2010-2011) with 49%.
- SSC from St. Paul Sr. Sec. School, Udaipur (2008) with 54%.

Personal Details:

Father's Name : Himanshu Bhatt

Date of Birth : August 19, 1992

Gender : Male

Marital Status : Single

Nationality : Indian

Address : B-128, Sector-14, Udaipur – 313002, Rajasthan

Declaration:

I Abhishek Bhatt, hereby declare that the information contained herein is true and correct to the best of my knowledge and belief.

Dated:

Abhishek Bhatt
