

Aditya Bishwa Bismaya Sharma

Email: adityabbsharma2@gmail.com | **Tel:** +91-8433834898

Summary:

- Above 4 years of IT Software experience as Software Developer using Java, Spring-boot, React, React-Native and Web Development tools
- Worked with Fintech product company using latest technologies in full stack java development using Agile, DevOps, React/Angular, Spring boot, Microservices and Kafka.
- Experience in Spring-Boot, Hibernate, JPA, and RESTful web services.
- Experience in Object Oriented Design & Development in Java/Adv Java Technology.
- Experience across all phases of Software Development Life Cycle (SDLC).
- Expertise in Object-Oriented Programming/ Development and Design skills.
- Expertise create MySQL queries based on Requirement.
- Knowledge of Spring Boot, Micro-services, React, React Native, Git, MySQL and Agile Methodologies.
- Domain knowledge and business expertise in Banking and Finance
- Experience in analyzing functional requirements and coding.
- Self-motivated individual and a good team player with good analytical skills.

TECHNICAL SKILLS

Programming Languages	Core Java, Advanced Java, Javascript, Python
Framework	Spring Core, Spring Boot , Spring MVC, Spring Security , React JS, Hibernate, JPA, JDBC&ORM, React Native
Database	MySQL, MongoDB, H2
Web Technologies	HTML, CSS, Bootstrap, Javascript, ES6 & DOM Manipulation, Advanced Javascript, AJAX, JQuery, Wordpress
Tools/Libraries	React Hook/Redux, React Native Navigation/Context, Jackson, Material-UI, Swagger, Postman
Version Control	Git
Build Tools/Package Manager	Maven, Gradle, NPM
Other Skills and Tools	Unit Testing and Integration Testing using JUnit and Mockito, HTTP, RESTFUL APIs, XML, JSON, Message Brokers like ActiveMq/Kafka, SFTP, Apache Camel, Eureka as Micro services registry and discovery, Feign Client and RestTemplate as synchronous communication client, API Gateway Load Balancing at Server side, JMS for asynchronous communication using message brokers
Concepts	SOLID Principles, Object Oriented Programming, Functional Programming, Aspect Oriented Programming, Distributed Architecture, MVC Architecture, Micro services Architecture, Data Structures and Algorithms, System Design
Software Development Methodologies	Micro services, SDLC, Agile and Extreme Programming, Object Oriented Design, Basics of AWS cloud Native deployment(EC2,S3,RDS), Distributed Systems, Design Patterns

RELEVANT PROFESSIONAL EXPERIENCE

1. Baton Systems

Chennai, India

June 2022 to Present as Software Engineer-II

Technologies used:

- **Java, Spring-boot, Microservice, Restful web services, MySql, Message Brokers like ActiveMq, SFTP, Javascript, Python, React, Junit, Mockito, Git, JIRA, Confluence, SonarCube, Jenkins,**

Roles and Responsibilities

- Written well-designed, testable, efficient code adhering to the SDLC timelines in AGILE environment.
- Developed REST APIs and other features of products using Java, Spring-boot Framework in micro-service based environment.
- Prepared and produced a release of software components
- Designed and implemented major part of the micro-services involving advanced client requirements
- Contributed to all phases of the development life-cycle using JIRA
- Was a part of bugfix and implementation team catering to the urgent bug fixes required in production and release cycles
- Implemented Synchronous communication between micro-services using Rest-Template, HttpContext
- Established Interservice / external Asynchronous communication using Message Brokers like ActiveMq, IBMMq, SFTP through JMS/Apache Camel following Enterprise Integration Pattern
- Automated various processes using python, Bash Script
- Efficiently executed tough and long pending sub modules of project through advanced java concepts like Multi-threading feature using Completed-Future while fetching multiple REST Calls from different services, Implemented Caching to reduce latency
- Followed SOLID system design principles throughout the code
- Used appropriate data structures like Heap for optimization with implementation of algorithms
- Adeptly utilized Spring boot to design and implement robust systems by creating entities with association mappings in complex modules
- Crafted sophisticated Database low cost queries using both native queries, JPA or JPQL enhancing overall performance
- Documented designs and APIs developed, Created JIRA tickets for the implementation of various designed modules
- Proactively attended to client issues from support team and fixed the bugs

2. Indian Overseas Bank

Mumbai(Dec'2015 to June'2022)

Dec'2015 to June 2022 as Assistant Manager

Work Responsibilities.

Worked as Forex Officer in Forex Department and handled many foreign remittances related work in bank. Also Worked in the General Banking Department and in the Credit Department as a Credit Officer.

3. betaQSolutions *Bhubaneswar,India*

Sep2011 to Feb 2015 as **Web Developer**

Work Responsibilities.

Worked on various web development projects using HTML,CSS, JavaScript, BootStrap, CMS like Wordpress ,PHP,Java,React

4. Essar Shipping *Jamnagar,Gujarat,India*

Sep2010 to July 2011 as **Asst. Manager(Electrical Engg.)**

Work Responsibilities.

Supervised installation of various motors/PLC and other electrical equipments in port site

PROJECTS

- **Created a novel mobile application called “TickoMoment” using React Native, Spring Boot, Node JS in which users can create posts and tag their contacts in the posts and chat with them referring to posts**

Technologies Used:

Front-End:

React Native, Expo, Libraries- React native navigation, React Native gesture handler, React Native Paper, Axios, SockJS, Websocket

Back End:

Programming Language/ Framework – **Java, Spring-boot, Spring Security** for authentication/authorization, Javascript ,Node JS for implementing Websocket server for chatting.

Database - **MySQL(In Process of migration to MongoDB)**

Dev-ops: deployed in **AWS EC2, RDS,S3**

Tools Used: Android Studio Emulator, Postman, IntelliJ Idea, Visual Studio

- **Developed a Unified Platform for Syndromic Mapping, Testing, Analytics and Consultation for patients, doctors and Health Department Government**

Technologies Used:

Front-End:

HTML,CSS,JavaScript

WebUI Library used- **REACTJS**, UI Library used– **Material UI**,State Management Library used React Hooks like useState,useEffect and **Redux**, Routing Library – **React Router**, Http Client – **Fetch**, Build Tool - **Yarn**

Back End:

Programming Language - **Java**, MVC and Security Framework- **Spring**, Testing Framework - **Junit and Mockito**;

Container – **Docker**, Database - **MySQL**

Tools Used: Postman, IntelliJ Idea, Chrome Developer Tools, Visual Studio

- **Developed a Movie Booking Application**

Technologies Used:

Front-End:

HTML,CSS,JavaScript

Web UI Library used- **REACTJS**, UI Library used– **Material UI**, Routing Library – **React Router**, Http Client – **Fetch**, Build Tool - **NPM**

Back End:

Programming Language - **Java**, MVC and Security Framework- **Spring**, Testing Framework - **Junit and Mockito**; Build Tool: **Maven**

Container – **Docker**, Database - **PostgresSql**

Tools Used: Swagger UI, IntelliJ Idea, Chrome Developer Tools, Visual Studio

Technologies Used :

Java Spring Boot using micro services architecture, Synchronous communication using REST,

EDUCATION

1. Masters in Computer Science from Liverpool John Moore university *2022-2023 (Merit)*
THESIS DETAILS: Prediction of customer churn analysis across industries using Machine and Deep Learning models (EDA, Feature Engineering, Hyperparameter tuning/Optimization, Models used: LR, DT, SVM with different kernels, Naïve Bayes, KNN, RF, Adaboost, XGboost, Smote-tomek sampling)
2. Post Graduate Diploma in **Full Stack Development** from IIIT Bangalore – **3.59/4.0**
2021- 2022
3. KIIT Deemed University, Bhubaneswar, India with a CGPA of **7.54/10.0** *2006 - 2010*
B. Tech (Electronics & Electrical Engg. (EEE))
4. 12th – **83.67%** *2003 - 2005*
5. 10th - **89.47%** *2003*

HOBBIES & INTERESTS

Reading News/Articles, Spiritual self help books, Gardening, Exercise, Watching informative videos on web/Youtube

CAREER ASPIRATIONS

I have always devoted my full potential into the work I am assigned with. I want to put myriad of my ideas in place to software development and design and I look for great opportunities ahead in the field of Software Development.

DECLARATION I do hereby declare that, the above mentioned facts are true to the best of my knowledge and belief.

Aditya Bishwa Bismaya Sharma
