PROFESSIONAL SUMMARY

Experienced **SailPoint Developer** with over **5+ years of expertise** in **Identity and Access Management (IAM)**, specializing in **SailPoint IdentityIQ** and **IdentityNow** solutions. Demonstrates in-depth knowledge of all phases of IAM security solutions, including **design, implementation, configuration, API integration**, and ongoing maintenance. Skilled in managing complex user lifecycle processes, including **Joiner, Mover, and Leaver workflows**, and enhancing compliance through **Segregation of Duties (SoD) policies**.

Proficient in building **automated provisioning solutions** using tools like **Jenkins** and **Ansible**, reducing manual intervention and increasing efficiency by over **40%**. Adept at developing and testing **API integrations** using **Postman**, ensuring seamless connectivity with critical enterprise applications such as Salesforce, Azure AD, and SAP. Strong expertise in creating customized **ServiceNow dashboards**, enabling real-time monitoring, reducing incident resolution times, and improving system visibility.

Known for delivering high-quality IAM solutions that exceed client expectations, contributing to secure and scalable access management environments. Proven ability to lead **SailPoint upgrades**, optimize system performance, and implement best practices for robust identity governance. Recognized for **mentoring junior developers**, driving process improvements, and ensuring alignment with business and compliance requirements. Committed to maintaining **99.9% uptime** and ensuring business continuity through proactive disaster recovery planning and system optimization.

- Proficient in implementing and optimizing **SailPoint IdentityIQ (8.x)**, utilizing advanced features like **Role Mining, Access Request Enhancements**, and improved performance tuning to enhance IAM capabilities.
- Skilled in deploying the latest **SailPoint IdentityNow features**, including **Lifecycle Manager Enhancements, Advanced Connector Support**, and **Improved Identity Analytics**, to streamline user lifecycle management and compliance.
- Developed and validated complex integrations using updated **REST APIs** in the latest SailPoint versions, ensuring seamless data synchronization and real-time communication with enterprise systems.

- Delivered enhanced role-based access control (RBAC) using **Role Insights and Recommendations**, newly introduced in SailPoint releases, reducing role duplication and improving governance.
- Leveraged **IdentityIQ Job Scheduler Enhancements** in the latest versions to reduce processing time by **30%**, achieving faster provisioning and certification campaign execution.
- Utilized **Policy Violation Remediation Automation** and **Bulk Certification Capabilities**, introduced in newer SailPoint releases, automating compliance tasks and improving audit readiness.
- Implemented **Enhanced Access Reviews** and **Real-Time Dashboards** with data visualization features, aligning IAM processes with regulatory standards such as GDPR and SOX.
- Designed failover strategies and utilized **Resilient Job Processing** features in the latest SailPoint versions, ensuring **99.9% uptime** and robust disaster recovery capabilities.
- Migrated and optimized identity solutions using SailPoint's latest **cloud-native capabilities**, improving scalability, security, and seamless integration with SaaS platforms.
- Conducted training sessions on the **new SailPoint UI enhancements**, empowering end-users with improved self-service capabilities and reducing dependency on support teams.

WORK EXPERIENCE

Currently working as a Sailpoint Developer at Accenture (Aug 2023 – till date).

Worked as a Sailpoint Developer at Wipro. (Jun 2019- May 2023)

WORK HISTORY

Project 1: SailPoint IdentityIQ Implementation for Banking Client

- **Company Name: Accenture**
- **Client Name: Confidential Banking Client**
- **Period: Aug 2023 – Present**

Responsibilities:

- Configured and customized **SailPoint IdentityIQ (8.x)** modules, including workflows, provisioning policies, and certification campaigns, to align with banking security requirements.
- Automated **Joiner, Mover, Leaver workflows**, improving provisioning accuracy and reducing manual effort by **40%**.
- Integrated IdentityIQ with core banking applications like **Salesforce** and **Azure AD**, leveraging API testing tools like **Postman** for seamless data synchronization.
- Designed and implemented **Role Mining and Optimization** using advanced features in **IdentityIQ (8.x)**, enhancing role-based access control (RBAC).
- Reduced processing times by **30%** through **IdentityIQ Job Scheduler Enhancements**, optimizing task execution for provisioning and certification campaigns.
- Conducted **access certification campaigns** using IdentityIQ's latest features, ensuring compliance with **SOX** and **GDPR regulations**.
- Created **real-time monitoring dashboards** in **ServiceNow**, improving incident visibility and reducing resolution times by **25%**.
- Collaborated with stakeholders to gather requirements, design tailored IAM solutions, and provide regular updates on project milestones.
- Conducted **root cause analysis** for recurring issues, implementing permanent fixes that enhanced system stability and user satisfaction.
- Automated repetitive IAM tasks using **Jenkins** and **Ansible**, improving workflow efficiency and reducing human errors.
- Trained junior developers on advanced IdentityIQ features, improving team productivity and fostering knowledge sharing.
- Participated in **Disaster Recovery (DR) planning and testing**, ensuring robust backup strategies and maintaining **99.9% uptime**.

Project 2: Saviynt Upgrade and Optimization for PMI

- **Company Name: Wipro**
- **Client Name: Philip Morris International (PMI)**
- **Period: Jan 2022 – May 2023**

Responsibilities:

- Managed the full **Saviynt upgrade** from version 5.5 to **23.8**, ensuring a smooth transition with minimal service disruption.
- Customized and optimized roles, workflows, and entitlement policies in **Saviynt 23.8**, aligning with PMI's global compliance standards.

- Automated bulk provisioning tasks using **Jenkins** and **Ansible**, reducing processing time and manual interventions by **35%**.
- Conducted extensive **API testing** using **Postman**, validating integration with HR systems, financial tools, and cloud applications.
- Implemented advanced **SoD policies** and conducted periodic access reviews to ensure compliance with **GDPR** and **SOX** regulations.
- Optimized job scheduling and improved system responsiveness, reducing processing times for access requests by **30%**.
- Resolved critical incidents and service requests using **ServiceNow**, achieving a **90% first-call resolution rate**.
- Delivered detailed training sessions on **Saviynt 23.8** enhancements, empowering team members with updated features and configurations.
- Created real-time **compliance monitoring dashboards**, providing stakeholders with actionable insights into user access trends and risks.
- Performed root cause analysis for complex integration issues, applying permanent solutions to stabilize the IAM environment.
- Documented upgrade procedures, including test cases, configuration changes, and best practices, ensuring audit readiness.
- Participated in **Disaster Recovery (DR) planning**, validating backup systems and ensuring operational continuity.

Project 3: SailPoint IdentityNow Deployment for Walmart

- **Company Name: Data net Techno Solutions Private Limited**
- **Client Name: Walmart**
- **Period: June 2020 – Dec 2021**

Responsibilities:

- Configured and deployed **IdentityNow connectors**, automating user lifecycle management for global Walmart operations.
- Developed and tested over **150 API integrations** using **Postman**, ensuring seamless communication with HR systems and cloud applications.
- Automated **bulk role provisioning** and entitlement management, reducing manual workload by **30%** using advanced IdentityNow tools.
- Implemented **Advanced Analytics** features, providing actionable insights into access trends and compliance metrics.
- Conducted periodic compliance audits and implemented strict **SoD checks**, ensuring adherence to GDPR and internal policies.
- Resolved high-priority incidents using **ServiceNow**, maintaining a **99.8% system uptime** and reducing response times.
- Collaborated with stakeholders to design IAM solutions aligned with Walmart's business and regulatory needs.
- Conducted root cause analysis for system issues, applying fixes to prevent future disruptions.

- Trained support teams on IdentityNow's new features and compliance workflows, improving operational readiness.
- Created customized dashboards for access monitoring, enabling real-time visibility for compliance officers.
- Documented integration procedures, including test plans and API configurations, ensuring knowledge transfer and audit compliance.
- Participated in **Disaster Recovery (DR) testing**, validating failover processes to ensure business continuity.

Project 4: Saviynt Governance for Cleveland Clinic

- **Company Name:** TERIX International
- **Client Name:** Wipro
- **Period:** Jun 2019 – May 2020

Responsibilities:

- Implemented **Saviynt Security Manager (5.5)** workflows and policies tailored to healthcare compliance requirements.
- Automated **Joiner, Mover, Leaver processes**, improving onboarding accuracy and reducing processing time by **25%**.
- Integrated Saviynt with critical healthcare systems like **Epic** and **SAP**, ensuring secure and efficient access management.
- Conducted access reviews and implemented **SoD policies**, ensuring compliance with **HIPAA** and internal audit standards.
- Created real-time compliance reports and dashboards, providing actionable insights to management and compliance officers.
- Optimized Saviynt job scheduling, improving performance and reducing processing delays.
- Resolved service requests and critical incidents in **ServiceNow**, maintaining high system availability.
- Delivered training sessions for IT staff on Saviynt features and operational workflows, improving team efficiency.
- Documented all configurations, workflows, and compliance procedures, ensuring audit readiness.
- Conducted root cause analysis for recurring issues, implementing permanent fixes to stabilize the IAM system.
- Participated in **patch management** and system updates, ensuring system resilience and compliance with security protocols.
- Played a key role in **Disaster Recovery (DR) testing**, ensuring robust backup and recovery processes.

EDUCATION

B. E from St Peters Institute Of Higher Education And Research Demeed University -2019

CERTIFICATIONS

- **SailPoint Certified IdentityIQ Implementation Specialist**
- **SailPoint Certified IdentityNow Professional**
- **Certified Identity and Access Manager (CIAM)**
- **Certified ServiceNow System Administrator**
- **ITIL Foundation Certification**
