

ROHIT RAVULA

Hardware Engineer -2.2 yrs.

Phone: 6304659781.

Email: rohitfeb11@gmail.com

Profile Summary:

Dynamic and detail-oriented Hardware Engineer with 2 years of hands-on experience in designing, developing, and testing hardware components and systems. Adept at collaborating with cross-functional teams to deliver high-quality, reliable, and innovative hardware solutions.

Key Skills:

- Hardware debugging and troubleshooting
- Prototyping and rapid hardware iteration
- Supply chain Management
- Circuit Design and Simulation
- Design tools: Kicad, LTspice.
- Quality in NPD
- Test Equipment proficiency
- Familiarity in CAN, UART, SPI, I2C protocols
- Vector Canoe (CAN analyzer) and PCAN view
- Documentation and technical reporting
- Programming (C, Python)
- SAP MM for PR/PO process and Suppliers follow-ups for rapid procurement of Components
- Communication skills, interpersonal skills and cross functional ability.

Experience:

❖ Hardware Engineer at Ola Electric (Dec 2023-present)

- **Reventech Solutions (Pay-roll company)**
- Assisted in the design and fabrication of PCBs for prototyping purposes.
- Conducted rigorous testing and validation of hardware prototypes, identifying and resolving design issues.
- Collaborated with software and mechanical engineers to integrate hardware components seamlessly into larger systems.

- Created technical documentation, including BOMs and assembly instructions, to facilitate manufacturing.
- Maintaining healthy relations with Suppliers for faster delivery of products (PCB, PCBA, ECP'S).
- Understanding Schematics and interpret how circuits works and troubleshoot issues.
- Documented hardware development processes, including detailed test plans, reports, and design specifications.

❖ **Internship at Ola Electric (May 2023-Nov 2023)**

- Worked on root causing the failure boards and field issues.
- Assisted Senior design engineers in testing and documentation.
- Hardware board bringups and giving feedback to the design engineers.
- Documentations and preparing reports for failure and field issue boards.
- Worked for S1 Air project from design level testing to production level testing
- Taking CAN logs and Analyzing in CANoe tool for failures
- Hands on experience on measuring equipment like CRO, DMM, Signal Generator, Power supplies.
- Managing Electronic Component inventory to ensure timely availability for projects

❖ **Embedded trainee engineer at Manyatan Technologies (start-up) (June 2019-February 2020)**

- Worked on Tuya Wi-Fi modules for IOT home automation project
- Worked on Nuvoton Microcontroller (8-bit N78 series) and writing test codes for assembled boards.
- Worked on Zig-bee protocol for in-house modules.
- Worked on Smart Switch module and Household IOT projects.
- Board bring up of Hardware assembled boards.

Education:

- ❖ 2013 – 2017 B. Tech in **Electronics and Instrumentation Engg.** – **63%**
University- JNTU, Hyderabad.
- ❖ 2011-2013 Board of Intermediate Education – **MPC- 88%**
Sri Chaitanya Junior College- Hyderabad.
- ❖ 2011 Secondary School Certificate – **90%**
Gurukula Vidyapeetham High School- Hyderabad.

Certifications:

❖ Embedded Systems Certification course- March 2019

- Kernel Masters- Hyderabad.
- Embedded Systems, Linux device drivers, Hardware development.

Projects:

❖ Ola S1 Air and S1 X VCU:

- Simulate real-world conditions and test the VCU's performance in a controlled environment.
- Use simulators to emulate various vehicle systems and inputs, such as sensors and actuators.
- Component level debugging and Root cause analysis of failure VCUs.
- Document all test cases, results, and any issues encountered for future reference and analysis.
- Test the VCU's ability to handle faults and error conditions gracefully.
- Conduct long-term tests to assess the VCU's durability and reliability.
- Component procurement and supporting manufacturing process such as PCB Assembly for Proto building.

Personal details:

❖ **Father's name:** Satish Kumar Ravula

❖ **DOB:** February 11, 1996

❖ **Nationality:** Indian

❖ **Address:** 104, Uday Arcade
Nethaji Nagar, Saroor Nagar
Hyderabad-500060.

I hereby declare that the written particulars are updated and true to the best of my knowledge and belief.

Date: Dec' 2024
