Experience

Macrolink Tech solution pvt. Ltd.

September 2023 – Present

Front end / React Native App Developer

Bengaluru

- Developed and maintained responsive web and mobile applications using JavaScript frameworks like React.js and React Native, improving cross-platform performance by 25% and enhancing user engagement across devices.
- Integrated RESTful APIs with Node.js and Express, optimizing data flow and reducing response times by 30%, resulting in faster content delivery and improved user functionality.
- Collaborated with cross-functional teams, translating complex UI/UX designs into pixel-perfect interfaces using Figma, HTML, CSS, Bootstrap, and Material-UI, accelerating project delivery by 25%.
- Enhanced development productivity by 35% through the creation of reusable code components and optimized UI elements, leading to faster feature deployment and reduced maintenance costs.
- Conducted API testing and debugging with Postman, ensuring data accuracy and application stability.
- Actively participating in sprint planning, code reviews, and daily stand-ups to deliver projects on time.

Project Works

Admin Panel Web App | *React js, Node js, Material-UI, Bootstrap, Express, RESTful API, MongoDB*

[\[Link\]](#)

- Developed a responsive and dynamic admin panel using React.js, providing administrators with powerful tools to manage and monitor application data.
- Designed and implemented sleek and modern user interfaces using Material-UI and Bootstrap, ensuring a consistent and professional appearance across the platform.
- Built the back-end using Node.js and Express to handle server-side logic, manage API routes, and facilitate secure data interactions.
- Utilized MongoDB as the database to store and manage application data, ensuring efficient retrieval and robust storage of user information, content, and configurations..

Laundry Service Mobile App | *React Native, Node.js, RESTful API, MongoDB, Postman*

[\[Link\]](#)

- Developed a user-friendly mobile application using React Native, Implemented intuitive UI/UX designs to ensure a smooth and engaging user experience
- Integrated RESTful APIs to fetch real-time data from the server, providing users with up-to-date service options and pricing.
- Utilized MongoDB as the database to store and manage user information, service categories, and order history, ensuring fast and reliable data retrieval.
- Conducted thorough API testing and debugging using Postman to verify the accuracy and performance of the application's data interactions.

E-commerce Web App | *React.js, Node.js, Express, MongoDB, Redux, RESTful API*

[\[Link\]](#)

- Developed a comprehensive e-commerce platform using React.js, delivering a seamless shopping experience with intuitive navigation and responsive design.
- Integrated Redux for efficient state management, optimizing data flow and enhancing user interaction across the app.
- Implemented MongoDB as the database to store and manage product details, user information, and order histories, ensuring quick and reliable data access.

Technical Skills

Languages: JavaScript, Node, HTML/CSS, MongoDB

Developer Tools: VS Code, Postman, Git, Github Android Studio, Figma, Canva, Photoshop

Technologies/Frameworks: React Js, React Native, Express, Wix, WordPress

Certification

MERN Stack course

Besant Technology

[\[Certificate Link\]](#)

- Gained comprehensive knowledge in building full-stack applications using MongoDB, Express, React, and Node.js.
