CAREER CONTOUR

Capgemini Pune : Since May'2020

Projects Handled:

Application : TD Ameritrade Insurance
Client : **TDA**
Technology : COBOL, DB2, JCL, Vsam, cics Endeavor, Xpeditor,
Role :Team Member
Description :

The company was founded as Ameritrade in 1971. In 2006, it acquired the United States operations of TD Waterhouse from Canadian holding company TD Bank Group and was renamed TD Ameritrade, with TD Bank Group holding a significant ownership stake in the resulting combined company. In September 2017, the company acquired the main brokerage business of Scottrade, and converted all of their client assets and accounts to TD Ameritrade; the Scottrade Bank subsidiary along with associated checking and savings accounts were folded into TD Bank Group's U.S. subsidiary TD Bank, N.A., making the Scottrade brand cease to exist. In 2020, TD Bank Group sold TD Ameritrade to Charles Schwab Corporation. TD Ameritrade's investment services and accounts are now scheduled to be fully absorbed and integrated with those of Schwab by the year 2023, including but not limited to former legacy Scottrade brokerage accounts. Its operations are in the process of being moved to the Charles Schwab headquarters in Westlake, Texas..

Deliverable s:

- Batch job abend resolution within SLA , root causal analysis of the source module and provide permanent solution.
- JCL changes and preparing test jobs.
- Updating/changes in production data as per client given data
- Preparing/changes in Jobs/procedures as per client requirements
