## PROFESSIONAL SUMMERY

- **3.5+ years** of proficient experience as RPA Developer.
- Practical experience in Automating **Finance, HealthCare, and Insurance** Domain Applications.
- Implemented the **end-to-end execution** for different processes using **Attended** and **Non-Attended Bots**.
- Familiar with the different methodologies like **agile, waterfall model** etc.
- Experienced in using **UiPath Studio, Orchestrator, Data Scraping techniques**.
- Have Worked on **Queue Configurations, Monitoring, Internal Queue Actions, Exception handling**, efficient use of stages, blocks, data types, session, and environmental variables for processing of **Business Process diagrams** and Process flow charts using **RPA tools**.
- Automated **Excel, Web Based, Desktop based applications** using automation tool UiPath .
- Used **Screen Scraping** methods such as Full text, Native and OCR engines like (MS OCR engines/Google OCR) extracting bigger blocks of text, text position on screen and other granular information of text.
- Experience in working in **Control Room** and Session management.
- Experience in designing BOTS by using **Re-framework, Sequence, Flowchart** and State Machine.
- Having good knowledge of Preparing **RPA Development Artefacts** such as **ODI, PDI**.
- Experience in automating **PDF Documents**.
- Proficient in Managing Collection and Internal VBO's/Packages.
- Quick learner and excellent team player, ability to meet tight deadlines and work under pressure.

## Project

---

### ● Project 1:

**Project Name : Metrix Reporting**

**Client : Bausch - India**

**Technology : RPA**

**Role : RPA developer**

#### **Roles and Responsibilities:**

- Developed Business object and process flow as per the requirement.
- Developed four Bot's to process the cases of volume Daily 1500-2500 cases.
- Understanding Logical flow of the Application from Business Knowledge.
- Utilized Data Manipulation methods.
- Developed the RPA bots using Blue Prism from scratch in end-to-end process.
- Have regular interactions with onsite test analyst and resolve queries & clarifications in a timely manner.
- Worked with Production support during UAT and Production Installs.

### **Project 2:**

**Project Name : WAAS Automation**

**Client : Flipkart – E-Commerce**

**Technology : RPA**

**Role : RPA developer**

#### **Roles and Responsibilities:**

- Understanding the requirement of process to make process-based Bots.
- Creating Bots using the RPA tool to automate the end-to-end process.
- Involved in consolidating all the critical issues in the project discussion with client team to get resolution.
- Assist and support implementation team members.
- Involved in Full Software Development Life Cycle (SDLC).
- Involved in creation of PDD (Process Definition Document) with BA.
- Created documents like PDI, ODI
- Developed the RPA bots using UiPath from scratch in end-to-end process.
- Worked with Production support during UAT and Production Installs.

## Technical skills

---

- **RPA Tools :** UiPath, Blue Prism, Power Automate
- **Technical skills :** UiPath 2021.10.6, 2022.10.4 Blue Prism 7.1.0
- **Data Base :** MySQL
- **Operating systems :** Windows 7/10/11
- **Certifications :** UiPath – RPA Developer Advanced, RPA Developer Foundation, Blue Prism Foundation

## Technical skills

---

- **Address** : Pune
- **DOB** : 31/12/1997
- **Nationality** : Indian
- **Marital Status** : Single
- **Language** : English, Hindi, Marathi

### ● Project 3:

**Project Name** : Weather Data Preparation  
**Client** : Saudi Arabian Railways (SAR)  
**Technology** : RPA  
**Role** : RPA developer

#### **Roles and Responsibilities:**

- Involved in knowledge Transfer calls
- Processes Execution and Monitoring
- Overall Maintenance and Support
- End to End process testing
- Release Management and Production Support

## Declaration

---

I hereby declare that all the details furnished above are true to the best of my knowledge and belief.
