

Key Skills	Comments
SAP CPI	7+ Years of experience
BTP	4 Years of experience

Email ID: rajacpipipo@gmail.com

Mobil: +91- 9632092308

PROFESSIONAL SUMMARY:

Result driven SAP Process Integration/Process Orchestration consultant with excellent technical skills demonstrated by over 7.7 years of experience in different version of SAP PI (7.1/7.31/7.4) and SAP PO 7.5 & SAP CPI architecture. Passion for computer applications, especially towards the system architecture and integration domain. Motivated, Enthusiastic consultant with strong desire to upscale and enhance towards the market needs. Committed to deliver high quality results with little supervision. Energetic, Organized and Professional

CPI SKILL Set:

- ✓ Good experience in a full cycle implementation & integration in CPI and BTP Integration Suite projects.
- ✓ Expertise in SAP BTP Business Technology Platform Integration Suite services
- ✓ Good experience in SAP CPI Architecture and its components (Discover, Design, Monitor, Setting).
- ✓ Experience on Certificate Deployment, User Credential & OAuth2 deployment, Configuration and Stored the CPI credentials under Keeper store Application.
- ✓ Tenant maintenance and moving the IFlow from Dev to QA, and QA to Prod without any issues with CAB Approvals.
- ✓ In depth knowledge in Data store operations, write variables, value mapping and other integration steps from design pallet.
- ✓ Experience in developing inbound and outbound interfaces to/from the cloud to On-Premise and Cloud instances of SAP Products.
- ✓ Working experience in migrating interfaces from SAP PI/PO to cloud-based BTP Integration suite.
- ✓ Experience in defining custom iFlows, local & exception sub-processes, and exception handling.
- ✓ Very good experience and working experience in palette functions, Groovy Script, Monitoring, Security Artifacts, Tracing messages and Message mapping functionalities.
- ✓ Expertise in handling various integration adapters in, Success factor, ODATA, SFTP, IDOC, SOAP, HTTP, Process Direct, JDBC, As2, REST Adapters) to exchange messages between sender and receiver.
- ✓ Experience in handling different data conversions like JSON to XML, CSV to XML, etc.
- ✓ Experience in using various CPI palette options (integration patterns – message transformations, enricher, splitter, etc.)
- ✓ SAP BTP Experience in handling security artifacts, encryption, and decryption mechanisms and SSH keys.
- ✓ Integrating S/4HANA and related business processes, systems configuration, and enhancements.

SAP PI & PO SKILLS:

- ✓ Experience on Support project and development project
- ✓ Experience on Understanding and analysing the requirements to provide the best solutions to the client.
- ✓ Hands-On-Experience in Integration of SAP and Non SAP Systems using **SAP NetWeaver PI/PO**.
- ✓ Experience in working with SAP PI Tools **ESR, ID, SLD & RWB**.
- ✓ Hands-On-Experience on Transport & Release of the Design & Configuration objects using File & **CTS** Transport Mechanisms.
- ✓ Extensive Experience on Integration Development – Adapters like File (FTP/NFS), SFTP, IDOC, IDOC_AAE, RFC, JDBC, XI (ABAP Proxies), SOAP, Mail & REST.
- ✓ Extensive Experience in Integration Development using **Graphical Mapping**.
- ✓ Hands-On-Experience on Performing Value Mappings, **RFC Lookups graphically, parameterized mappings**, IDOC Packaging.
- ✓ Experience in working with module configuration (Standard Modules).
- ✓ Hands-On-Experience on Alert Configuration in **dual stack & in single Stack**.
- ✓ Good exposure in handling high severity issues, involving good analytical skills for troubleshooting the production issues, along with client interaction for information.
- ✓ Experience in configuration of Proxy & IDOC_AAE Settings.
- ✓ Involved in defining Technical and Business Systems in SLD.

-
- ✓ Understanding the business requirements, preparing of technical specification, coding & TUT (Technical Unit Test Plan).
 - ✓ Experience on User Defined Search configuration for SAP PO & SAP PI 7.1 interfaces.
 - ✓ Experience on resolving priority incidents.
 - ✓ Experience on EDI interfaces 810,850,855,856,820,812,997
 - ✓ Experience on gathering requirement & creation of mapping specification.
 - ✓ Experience on working as an Independent, as a Team member & leading the Team.

Skills and Competencies

SAP Process Integration 7.11, 7.31 & 7.4	Documentation Web services. API's	Core Java Solution Manager XML , XSD, WSDL , XSLT
Migration from PI 7.11 to PO 7.5		
SAP Process orchestration 7.5 Single stack		
SAP Cloud Platform integration – CPI		
Business technology Platform -- BTP		

PROFESSIONAL EXPERIENCE

- Working as Lead Consultant at WIPRO Technologies from OCT 2021 to FEB 2024.
- Worked as an Associate Project at CTS from AUG 2016 to OCT 2021

EDUCATION:

- **B. Tech.** Electronics and Communication from JNTU with First Class. 2010

Certifications / Affiliations

-
- **SAP Certified Technology Associate – Process Orchestration**
 - **SAP Certified Development Associate – SAP Integration Suite**

Professional Experience:

Wipro Technologies – Enbridge

Role: Sr. Developer

Project: Enbridge

From: Feb-2023 to Feb-2024

Responsibilities:

- ✓ Discussions with Functional team to understand the functional specification document and finalizing the technical solution in CPI
- ✓ Analyzing the functional specifications and designing the technical solution
- ✓ Created custom integration flows based on requirements - implemented Cloud to on premise, Cloud to Cloud Integrations
- ✓ Created Integration Processes from Scratch with exception handling.
- ✓ Created integration flows using adapters IDOC, SFTP, ODATA, REST, XI, Mail, Http, Azure Storage, Process Direct and Integrated with Bank application using PGP Decryption and Encryption pallets.
- ✓ Implemented sequential and parallel multicasting for connecting multiple systems.

- ✓ Used Groovy Script, content modifier, Send, request reply, multicast, router, process call, Local integration process, exception sub process, encoding etc.
- ✓ Used Message Mapping and Content Modifier for transformations.
- ✓ Prepared UTP and UAT documentation and Migrate Iflow into quality through manual transport.
- ✓ Involved in go live and in hyper care support.

Role: Developer**Project: Global ventures****From:** Oct 2021 to Feb-2023

Global ventures are those that weave globalization into their businesses from the start. Technological advances and emerging markets are enabling entrepreneurs to extract more value than ever before from setting up in multiple countries.

Responsibilities:

- ✓ Discussions with Functional team to understand the functional specification document and finalizing the technical solution in CPI
- ✓ Responsible for integration development activities
- ✓ Involved in Unit Testing, Integration Testing, UAT Testing
- ✓ Transporting of Integration flows.
- ✓ Responsible for preparing technical documentation and unit test documentation during the project.
- ✓ Perform Cut Over activities and hyper care support.
- ✓ Facilitated knowledge transfer (KT) sessions, ensuring smooth handover of project information and expertise to team members.

Cognizant Technologies**MYLAN****Role: Associate Consultant****Project: MYLAN****From:** Oct 2019 to Oct 2021**About MYLAN:**

Mylan N.V. was a global generic and specialty pharmaceuticals company. In November 2020, Mylan merged with Upjohn, Pfizer's off-patent medicine division, to form Viatris. Previously, the company was domiciled in the Netherlands, with principal executive offices in Hatfield, Hertfordshire, UK and a "Global Center" in Canonsburg, Pennsylvania, US.

Development Activities:

- ✓ Designed and Developed Interface objects, Mapping objects, Integration Scenarios and Integration Processes.

- ✓ Configuring the Routing rules (Interface and Channel determination), Sender/Receiver agreements in integration directory.
- ✓ Worked on EDI Interfaces 850,855,810,997,820,856,860
- ✓ Involving in Preparing Technical Specifications and Unit Test Plans.
- ✓ Involving in creating all objects of Enterprise Service Repository and ID.
- ✓ Involving in Adaptor framework for communication channels like JDBC, IDOC, RFC and File adapters.
- ✓ Involving in Monitoring Message from Configuration and Monitoring
- ✓ Involving in creating Alert categories and Alert rule for different conditions.
- ✓ Designed and configured a scenario by using JDBC, IDOC, SOAP, PROXY, AS2 and FILE
- ✓ Developing a message mapping, interface objects and configuration objects for File to IDOC.
- ✓ Transfer the Integration repository and ID Objects to Quality using file system.
- ✓ Configured IDoc, File, RFC and JDBC Adapters. Monitoring of various business processes at runtime and Monitoring the message flow, analysis and status tracking of different processes.

CPI:

- ✓ **Creation of Custom Integration flows in BTP CPI.**
- ✓ Responsible for integration of SAP and NON SAP on premise and Cloud
- ✓ Involved in Unit Testing, Integration Testing, UAT Testing
- ✓ Transporting of Integration flows.
- ✓ Responsible for preparing technical documentation and unit test documentation during the project.
- ✓ Perform Cut Over activities and hyper care support.
- ✓ Facilitated knowledge transfer (KT) sessions, ensuring smooth handover of project information and expertise to team members.

Role: Developer

Project: Monsanto/Bayer

From: August 2016 to Oct 2019

About Monsanto/Bayer:

About Monsanto/Bayer:

Monsanto, an American agrochemical and agricultural biotechnology corporation, was founded in **1901** and had its headquarters in **Creve Coeur, Missouri**¹. The company is best known for its product **Roundup**, a glyphosate-based herbicide developed in the **1970s**. Additionally, Monsanto became a major producer of **genetically engineered crops**. In **2018**, it ranked **199th** on the Fortune 500 list of the largest United States corporations by revenue¹.

After being acquired by **Bayer** in **2018**, the name **Monsanto** was no longer used, but its previous product brand names were maintained

Implementation Activities:

- ✓ Developing Interfaces and co-coordinating with the connectivity teams – partners as well as middleware for successful end to end execution.
- ✓ Worked on EDI Interfaces 850,855,810,997,820,856,860
- ✓ Worked on Technical Specification documents, coding and Unit Test Plans.
- ✓ Carry out testing along with Functional consultant for all the developments.
- ✓ Worked on Technical Specification documents, coding and Unit Test Plans.
- ✓ Carry out testing along with Functional consultant for all the developments.

- ✓ Involved in Preparing Technical Specifications and Unit Test Plans.
- ✓ Involving in creating Alert categories and Alert rule for different conditions.
- ✓ Transfer the enterprise service repository and ID Objects to Quality using file system and CTS+

Support Activities:

- ✓ Supporting the Team whenever they got stuck during trouble shooting or enhancing & creating new interfaces.
- ✓ Gathering the requirement from business Team and providing the solutions in terms of Technical.
- ✓ Sharing the effort Estimation & delivery timelines based on bandwidth & complexity of the interface.
- ✓ Reviewing the interfaces & all kind of Docs which have been created by Team members.
- ✓ Creating Transports & moving them to next environment.
- ✓ Participating in integration Testing.
- ✓ Resolving all kind of priority incidents.
- ✓ Analysing the monthly reports on all kind of work done & sharing the suggestions on reduction of workload by fixing the issues.
