

RAJASHEKER REDDY KATKOORI

CLOUD ENGINEER

Hyderabad, India 500039 • 8977153759 • rajsheker65@gmail.com

Professional Summary

Results-driven cloud and devops Engineer with 7 + years of experience in automating, optimizing, and maintaining cloud infrastructure. Expertise in CI/CD pipelines, configuration management, containerization, and infrastructure as code (IaC). Proficient in AWS services, scripting, and monitoring tools to enhance system reliability and deployment efficiency.

Work History

Cloud Engineer, 03/2021 to Current

NexGenAI Solutions Private Limited – Hyderabad, India

Evaluated new AWS services and features for potential integration into existing architectures, staying ahead of industry trends.

- Optimized storage solutions by leveraging Amazon S3 lifecycle policies and versioning control features.
- Automated routine tasks using scripting languages such as Python, increasing overall productivity within the team
- Streamlined application deployment process using containerization technologies such as Docker
- Conducted comprehensive audits of existing AWS infrastructures to identify areas for improvement or potential risks.
- Developed monitoring solutions utilizing Amazon CloudWatch, ensuring optimal performance and timely issue resolution.
- Contributed to the continuous improvement of team processes, tools, and documentation for AWS architecture best practices.
- Facilitated seamless communication between development teams using Amazon API Gateway to create custom APIs for applications.
- Designed and implemented CI/CD pipelines using Jenkins and AWS CodePipeline, reducing deployment time by 60%.
- Developed and maintained Terraform scripts for automated infrastructure provisioning, ensuring consistency and reducing manual errors.
- Deployed and managed Kubernetes clusters (EKS) to orchestrate containerized applications, improving scalability and fault tolerance.
- Configured and monitored AWS CloudWatch, Prometheus, and Grafana for real-time system performance insights and anomaly detection.

- Managed AWS security best practices, including IAM policies, security groups, encryption, and compliance audits.
- Design, develop, test, implement, and support of enterprise shared components using technologies like Python / Angular / AWS and Spark
- Optimized AWS cost management by implementing auto-scaling, spot instances, and rightsizing recommendations.
- Collaborated with development teams to enhance deployment strategies, troubleshoot issues, and ensure high system availability.
- Backing up the Production servers to the commvault and performing DR drills.

SaaS Specialist, 09/2016 to 03/2021

NISC Export Services Pvt Ltd – Hyderabad, Telangana

Working on Cloud Applications and support by using Oracle NetSuite as CRM Tool. Setup,

configure, and integrate, EBSCO's SaaS products/services: EBSCO Discovery Service (EDS), OPAC on EBSCOhost, EBSCOhost Integrated Search (EHIS), Full Text Finder, Open Athens and SSO.

- Create website layout/user interface by using standard HTML/CSS practices and Integrate data from various backend services and databases.
- Apply custom branding to EBSCO products, Configure search
- Create and manage local collections and Get usage statistics.
- Setup, configure, and integrate EBSCO's SaaS products/services:
- Open Athens. Maintaining and Extracting of Reports using SQL Server management studio. Having exposure to cloud technologies and applications of SaaS methods in day to day tasks using AWS platform. SFX Conversion Project. (10/2007 - Present) Apply custom branding to EBSCO products
- Configure search results and display preferences
- Customize and control access Create and manage local collections and Get usage statistics. Worked on Oracle NetSuite and SQL for maintaining and developing Client level reports and Statistics of usage data.
- Uploading large datasets for clients library services using EBSCO Admin front end page. Applying Macro's for browsing automation.
- Working on virtual servers and setting up applications virtually.

Intern Trainee Associate, 11/2015 to 06/2016

Defense Research & Development Organization (DRDO) – Hyderabad, India

- 6 months of internship program to Develop and document style guidelines for web site content.
- Create searchable indices for web page content.
- Evaluate code to ensure that it is valid, is properly structured, meets industry standards and is compatible with browsers, devices, or operating systems.

Education

Master of Computer Applications: Computer And Information Sciences, 08/2013 to 06/2016
Osmania University - Hyderabad

Bachelor of Sciences: Mathematics And Computer Science, 06/2010 to 06/2013
Osmania University - Hyderabad

Board Of Intermediate: Intermediate (MPC), 06/2008 to 04/2010
Sri Chaitanya Jr College - Hyderabad

Board Of Secondary Education: SSC, 06/2007 to 03/2008
Sri Sai High School - Hyderabad

Personal Details

Date of Birth: 09/06/1992

Nationality: indian

Marital Status: Married

Passport: B9586321

Skills

AWS (EC2, S3, VPC, Lambda, CloudFormation, Route 53, RDS, IAM, CloudWatch, ECS, EKS)

CI/CD Tools: Jenkins, GitHub Actions, GitLab CI/CD, AWS CodePipeline

Configuration Management: Ansible, Chef, Puppe

Infrastructure as Code (IaC): Terraform, CloudFormation

Containerization & Orchestration: Docker, Kubernetes (EKS, Kops, Helm)

Scripting & Automation: Python, Bash

Version Control: Git, Bitbucket, GitHub, GitLab

Monitoring & Logging: ELK Stack, CloudWatch, Splunk

Security & Compliance: AWS IAM, Security Groups, AWS Shield, GuardDuty, WAF

Networking: VPC, Load Balancers, Route 53, VPN, Security Groups

Operating Systems: Linux (Ubuntu, CentOS, RHEL), Windows Server

Languages

English

Hindi

Telugu

Certifications

Certified Salesforce Platform Developer

Certified AWS Practitioner

Accomplishments

- Successfully migrated 15+ applications to AWS, improving scalability and reducing infrastructure costs by 40%.
- Designed a self-healing infrastructure using AWS Auto Scaling and Lambda functions, ensuring 99.99% uptime.
- Automated disaster recovery processes, reducing recovery time from 4 hours to under 30 minutes using Commvault Azure cool service.
- Conducted AWS training sessions for internal teams.

Declaration

I hereby declare that all the particulars stated are true to my knowledge and belief.
