Address : #104, Smrati nagar Indore, India

Senior Software Engineer (Embedded Software Development/Testing) With 8+ years of experience in the Development and Testing of Embedded Software application for the Automotive domain and very strongly as a generalist, someone who could take on a variety of tasks.

Experience's

SENIOR SOFTWARE ENGINEER

10/2021 TO PRESENT

Nebula Automotive Europe

Project: Nebula Platform [Tools: C++ 14(STL), VS Code, Bitbucket, Git, Visual Studio, Gtest, WSL, Genivi/CommonAPI, AdaptiveAutosar]

- Responsible to write integration and unit testing for vsomeip/adaptive autosar.
- Responsible to develop Code generator tool for adaptive Autosar
- Responsible to develop Application dependency mapper tool.
- Responsible to develop Adaptive SOA proxy development
- Responsible to develop CAN Dbc to Franca file parser tool using C++.
- Responsible to write Google test using C++ 14.
- Responsible to write excel to Json parser tool using xlint library.

TECHNICAL SPECIALIST

10/2019 TO 10/2021

RBEI, Bangalore

Project: Rear Corner Radar [Tools: Doors, C++ 14(STL), VS Code and Visual studio 2015, Python, Matlab, CANape and Gtest]

- Responsible to develop and update the DOW and RCW features of radar sensors.
- Responsible to update the requirements into Doors and RQM.
- Responsible to write Google test and Cantata test for developed code and other modules using C++ 14.
- Responsible to do analysis of features using CANape, MATLAB, and internal tools.
- Responsible to reduce the memory and bug fixings.

TECHNICAL LEAD

10/2018 TO 09/2019

HCL Technologies Bangalore

Project: NVME Test Framework, Porting PowerPC to Linux, Client-Server Module [Tools: C++ 14(STL), Vim, Linux, Python, Make and Eclipse]

- Responsible to develop Test framework for NVME modules using C++14 on Linux Platform.
- Responsible to get the requirements from the onsite client and distribute among the team.
- Responsible to port project from PowerPC (32bit/Big Endian) to Linux (64bit/Little Endian).
- Responsible to developed TCP client-server module (using python3.x) to read the EC driver data windows platform to Linux platform.

SENIOR SOFTWARE DEVELOPER

08/2016 TO 10/2018

RBEI, Bangalore

Project: Remote Client Simulator, Infotainment system testing Module [Tools: C++ 11(STL), Linux, and Visual studio 2005/2015, CAPL, CANoe, Python, Make and Eclipse, Sqlite database]

- Responsible to develop Phone, Navigation, Audio (Music) related simulation code.
- Responsible to get the requirements from the onsite client and distribute among the team.
- Responsible to write data compressor application using ZLib and SQLite for navigation data.
- Responsible to write CAPL and Python script to do testing for infotainment smoke and integration testing.

SOFTWARE DEVELOPER

03/2014 TO 08/2016

HCL Technologies, Pune and Chennai

Project: MEP (E-Bike) Protocol, Project Migration C to C++ Module [Tools: C++, and Visual studio 2008, Python, Make and Eclipse, STM32F2/F4, Freescale MPC5604B, PCAN Explorer, FreeRtos]

- Responsible to analysis of requirements and understanding the project.
- Responsible to develop Protocol using J1939 protocol.
- Responsible to write simulator tool using C# for can configuration-based files.
- Responsible to write google test to test the embedded software functionalities.
- Responsible to develop wrapper function and class to migrate C code to C++ code to support C++ library.

Skill's

- **Language:** Embedded/MISRA C & C++ 14, C#, Python, MATLAB
- **Tools :** GDB, JTAG, CanTata, CANoe, CANape, GTest, Visual Studio 2005/2015/2019, VScode, Keil, Stm32CubeIde.
- **Repository Tools:** Smart-Git, SVN, JIRA, RTC, Jenkins, Doors, git-bash
- **Protocols :** CAN, J1939, I2C, SPI, UART
- **Scripts :** Make, Python 3.7, CAPL, Batch file, CMake-3.16
- **Microcontroller's :** STM32F1/F2/F4, Freescale-MPC5604B, Infineon Aurix TC3XX
- **OS:** Windows, Linux, FreeRtos
- **Data Structure** with C and C++

Education

Bachelor of Engineering: Electronics and Communication – 2012, LNCTS, Bhopal (RGTU, Bhopal)

Polytechnic Diploma : Electronics and Tele-Communication - 2009

Hobbies

- Cooking, Meditation, Yoga
