

Summary

Senior Engineer at JAI Automotive Components Ltd . with 7+ years of experience . 4 Years Exp. in Selenium, WebDriver, Grid, Java, TestNG, Maven, Git, Jenkins, BDD Cucumber, Framework Design, Manual Testing, Automation Testing, API Testing, SQL , RestAssured, Agile, Robotic Process Automation Work Experience.

02/2022 – 10/2024 (LWD – 5th Oct 2024) Senior Engineer at JAI Automotive Components, Indore.

- #. Understanding the business requirements, preparing test scenario, test data, test cases and test reports.
- #. Involvement in Test Development & Execution using Selenium , Java and TestNG, Results Analyzing and Defect Reporting in different testmanagement tools.
- #. Involved in End to End Automation Infrastructure Development.
- #. Development of Page Object Model Framework from scratch to advance level.
- #. Created Test scripts Using different Element locators and methods.
- #. Conducting Data Driven Testing, Cross Browser Testing, API Testing and Parallel Test Execution.
- #. Data Driven Testing with valid and invalid inputs using different set of data sets.
- #. Sanity Testing, Re & Regression Testing on modified Software Builds.
- #. Tracking Changes, Preparing Reports and Updating Documents using automation.
- #. Responsible for Integration Testing, Functional Testing, System Testing and Regression Testing.
- #Experienced in creating HTTP request using Rest Assured methods and handling and asserting the responses.
- #. Documentations on Defect Management, Test Management & Test Automation.
- #. Execution of Manual Test cases using Automation and Reporting defects automatically.
- #. Interpreted and converted manual test cases into automation, smoke and regression suites using different tools and technologies.
- #. Worked on End to End Pipeline Building for Continuous Integration (CI) Requirements.
- #. Preparation of weekly and monthly status reports, Also Reviewing Test Reports and Prepared Summary Reports.
- #. Debugging & Executing Automation test script and modifying the scripts if required.
- #. Involved in the Integration Testing for various changes and requirements across team.
- #. Verifying data through SQL Queries in database.
- #. Team Communication and Customer CommunicationMonitoring pending issues and ensuring closure within the time frame

07/2016- 01/2022– Engineer Jamna Auto Industries Limited, Jamshedpur.

Accomplishments

- Used selenium automation to test whether correct data is uploaded on web application or not.
- Designed automation framework using selenium C#.
- Execute web automation test cases on daily basis and report it to manager.
- Execute test cases **manually and document** the results.
- Review and update test cases regularly to **maintain accuracy and relevance.**
- Identify, log, and prioritize defects in a bug-tracking tool.
- Data migration process from excel to RAMCO application using **UI Path.**
- Web Scrapping for comparing different suppliers using **UI Path.**
- Data Scrapping from PDF to excel using **UI Path.**
- Reduced cycle time of assembly by 2 seconds by using pneumatic cylinder in tilting the assembly and by eliminating unnecessary movement of operator which results in increase in production by 6%.
- Designed using **CATIA V5 Dual Stopper with rotatable C- Type Fixture.**
- Designed using **AutoCAD Auto Scrap Removing System.**

Education

2022 – 2025	Sysmbiosis Centre of Distance Learning, Pune • PGDM (Project Management) (Pursuing)
2012 – 2016	Dayalbagh Educational Institute, Agra • B.Tech (Mechanical) with 69.7%
2011 – 2012	Lions Convent H.S. School, Sendhwa • Class XII , CBSE Board with 77.2%
2009– 2010	Lions Convent H.S. School, Sendhwa • Class X , CBSE Board with 83.6%

Skills

- Selenium
- Webdriver
- C#
- JAVA
- CATIA V5
- AutoCAD
- Project Management
- Pneumatics
- Robotic Process Automation.

Languages

- English (Fluent)
- Hindi (Fluent)
