

Abhishek Awasthi

Key Skills	Comments
Java	4+ Years of good experience
Springboot, Micro service	4.7 Years of hands on experience
Postgresql	3.4 Years of experience
Kafka	2 Years of experience

PROFILE

- Having **4+ years** of IT work experience in the areas of Analysis,Development.
- Experience in designing and developing Multi-tier enterprise level web applications
- Experience in **Apache Kafka API** calls to process the messages smoothly on Kafka implementation with producer and consumer in **Spring Boot**.
- **Analyzed** systems flow, data usage, and work processes, and investigated problem areas.
- Experience having **SQL** Database.
- using Web Services, **XML,JSON** technologies.
- Experience having **Microservices architecture**.
- Experience in using various open source **Spring frameworks** and tools such a **Spring Boot and Spring Data JPA**.
- Experience in working as **API** Integration with **Rest Template** and **Web Client**.
- Experience in working with **Spring MVC** in developing web based applications.
- Experience in working with **Swagger API 2.0 Version**.
- Experience of developing with **REST(JAX-RS)** based web services including provider client end in enterprise application development.
- Experience having on **Rest-Security**.
- Experience in using various open source frameworks and **ORM** tools such as **Hibernate, JPA**.
- Experience having on **Spring Security** and **JWT** .
- Experience in implementing various Object-Oriented **Design Patterns** such as **Front Controller, DAO, Abstract factory, Factory, Singleton** .
- Sound understanding of entire Software Development Life Cycle with work experience in almost all phases like requirements gathering, **Design, Coding, Mockito,JUnit Testing** and **Bug fixing**.
- Experience in **Apache Tomcat, JBoss** and **Web logic Server**
- Experience on **Java Collection Framework** for representing and manipulating collections, enabling collections to be manipulated independently of implementation
- Experience on **Java 1.8, OOPS, Multithreading, Exception Handling, String Handling, Java Collection Framework**.
- Experience in integration of **back-end** environments along with database solutions.
- Problem Solving Skills and committed to learning new technologies.

PROFESSIONAL EXPERIENCE

- Worked as **Software Engineer** at **Mindtrail Technologies Pvt. Ltd.**
From **March-2019** to **Nov-2020**.
- Worked as **Java Developer** at **Zkteco Biometrics India Pvt. Ltd**
From **Dec-2020** to **Feb-2022**.
- Worked as **SR. Software Engineer** at **HCL Technologies Ltd.**
From **Feb-2022**.to **30th Oct-2023**.

TECHNICAL SKILLS

Languages	Java, SQL
Web Technologies	XML, JSON
Distributed Technologies	Web Services, Restful services, Swagger API.
Frameworks	Spring (Core, IOC, MVC), Hibernate, Restful, Spring Boot, JPA, Microservices, Kafka.
Design Patterns	Singleton, Front Controller, Dao and Factory, MVC Design Pattern.
Web/Application Server	Tomcat, JBOSS, WebLogic
Databases	Oracle 10g,12c,Postgresql
Java IDE	Eclipse, STS.VSC
Operating Systems	Windows
Tools	Maven, GIT and Junit, Mockito

Project# 1: Minerval IOT

Role: **Java developer**

Mineral IOT gives you a powerful ecosystem with the flexibility to design, run and share all the application that are developed in one place. Users can talk their day to day application development activities through the class board provides in Minerva IOT there by saves times, this function also allows third party integration for the management and developer of the management and developer of the application as well as to push the hour's code from external platforms. The developers have the option to work jointly with teams and manage the projects access.

Storage Service

Notification Service

Notification management Service

Cloud Service

Roles & Responsibilities:

- Used Spring Boot to create application on MVC architecture.
 - Analyzing the design document, Interaction with Client and Swagger API documentation.
 - Used Spring framework for dependency injection.
 - Client repository integration participated and also third-party URI Integration.
 - Participated in analysing associations between Database tables.
 - Used Hibernate and JPA with database tables.
 - Worked on bug fixing and enhancements on change requests.
 - Used Junit and write test case service class and JPA Repository.
 - Environment: Java1.8, Spring Boot, Spring Data JPA, Mockito Junit, Microservices. PostgreSQL, Jira, GIT, Kafka.
-

Project# 2: BBPS, DMT, AEPS

Role: **Software developer**

Transaction govt. bank and pvt. Bank is one which is related to the payment gateway. Now-a-days most people use online services like Shopping, Exam form Filling and other transaction thorough cards So promoting Online business company gives some offers for its regular, permanent customer. they provide their Customer membership and provide general Offers, personal offers, and membership offers. Our project is based on this requirement only.

Roles & Responsibilities:

- Used Spring Boot to create application on MVC architecture.
- Analyzing the design document, Interaction with Client.
- Used Spring framework for dependency injection.
- Client repository integration participated.
- Participated in analysing associations between Database tables.
- Used Hibernate with database tables.
- Worked on bug fixing and enhancements on change requests.
- Used Junit and write test case service class and DAO

- Environment: Java1.8, Spring Boot, RestAPI, Hibernate, JPA, Microservices, Mockito, Junit, Oracle 10c, SQL, Jira, GIT, Kafka...

Project# 3: OnboardingCustomerLoan Project

Role: **Software developer**

Loan is a central place for managing and growing your business. It's free and available to all Loan, and hers all easy Loan in easy Web application can register and Customer their product from Loan.

- Home Lone
- Personal Loan
- Education loan

Roles & Responsibilities:

- Used Spring Boot to create application on MVC architecture.
- Analysing the design document, Interaction with Client.
- Used Spring framework for dependency injection.
- Used Hibernate with write database tables.
- Client repository integration participated.
- Participated in analyzing associations between Database tables.
- Involved in Junit testing and test case creation.
- Worked on bug fixing and enhancements on change requests.

Environment: Java1.8, Spring Boot, RestAPI, Hibernate, Microservices, Mockito, Junit, Oracle 12c, Jira, GIT, Kafka.

Project# 4: NatWest CMS

Role: **Sr.Software developer**

As a business user, I want the ability to set up reminder message notification on a customer account When account as and when requirement, I also want the ability to view a central log which show reminders which are due this allows shows all reminder and message (osv2). user to the access the reminder including the full details contains and account information about user.

Report Service.

OSV2 Message service.

Reminder service.

Notification service

Location service

Roles & Responsibilities:

- Used Spring Boot to create application on MVC architecture.
- Analysing the design document, Interaction with Client.
- Used Spring framework for dependency injection.
- Used Hibernate with write database tables.
- Client repository integration participated.
- Participated in analyzing associations between Database tables.
- Involved in Junit testing and test case creation.
- Worked on bug fixing and enhancements on change requests.

- Environment: Java 1.8, Spring Boot, RestAPI, Spring, Microservices, Data JPA, Mockito Junit, Micro Services, SQL, Jira, GIT, Kafka.

ACADEMIC CREDENTIALS:

Degree	University/Institute/Board	Marks	Year of Qualifying
Bachelor of Electronic Communication engg.	Rajiv Gandhi Proudtyogiki Vishwavidyalaya, Bhopal	70%	2013

EXTRA-CURRICULAR ACTIVITY:

- Scout Guiding,
- NCC at school

PERSONAL PROFILE:

Name : Abhishek Awasthi
Date of Birth :14-May-1991
Gender : Male
Marital Status : Unmarried
Languages known : Hindi and English
Mother Tongue : Hindi
Blood Group : o+
Nationality : Indian
Hobbies : Reading Newspaper, watching science fiction Movies, Playing chess
Father's Name : Mr. Sushil Kumar Awasthi
