

Security Analyst

Phone Number:9880293859
Email Id:
abhishekhavanur18@gmail.com

Key Skills	Rating (5)
Poorf point	3.5
Email Security	3.5

Education

- Bachelor’s in Electrical & Electronics Engineering -2021
- Three years Diploma in Electrical & Electronics Engineering

Key Skills

- Threat Analysis and Management
- Network Security
- Security Information & Event management (SIEM)
- End Point Security (EDR)
- Email Security
- Data loss Prevention (DLP)
- Security Policies & Compliance
- Vulnerability management
- Change Management

Tools & Technologies

- SIEM Tools like Splunk, Devo
- EDR: Crowdstrike
- Microsoft Defender
- Email Security: Proof Point
- Data loss prevention: Force Point
- Vulnerability management Nessus
- Zscaler Proxy

Certifications

- SOC Analyst: SOC experts
- Introduction to CORTEX XSOAR by Palo Alto
- EC Council Certified Ethical Hacker (CEH v12) In Progress
- Microsoft Security Operations Analyst SC-200
- Forcepoint DLP 9.0: Administrator
- Introduction to Cybersecurity Tools & Cyberattacks: Coursera.

Profile Summary

Results-driven Cybersecurity Analyst with two years of experience in protecting digital assets through comprehensive threat analysis, network protection and incident management. Proficient in Network security, Endpoint Detection & response & Email Security, demonstrated ability to conduct in-depth analysis in SIEM & EDR tools for efficient security event monitoring and response. Known for analytical thinking, attention to detail, and excellent communication skills, I thrive in collaborative environments and am dedicated to continuous learning and improvement in the dynamic field of cyber security.

Key Deliverables

Security Monitoring and Analysis:

- Identified and investigated number of security incidents (phishing attempts, malware infections, etc.) utilizing SIEM, EDR, Email security tools.
- Involved in a reducing security alerts by 40% through detecting and suggesting of fine-tuning alerts to avoid false positives.
- Developed security dashboards to visualize security threats and improve threat detection efficiency.
- Implemented endpoint security measures using EDR tools such as CrowdStrike,
- Automated Nessus vulnerability scanning tasks to identify and Prioritize vulnerabilities based on severity and potential impact.
- Successfully mitigated a security incident (phishing attack, data breach, etc.) Preventing financial loss or operational disruption.
- Conducted security awareness training, significantly reduced phishing incidents
- Involved in Developing and documenting Email security incident response procedures to improve the client organization's response time and effectiveness.
- Contributed to Email/EDR security attacks post-incident reviews to identify root causes and implement preventive measures.
- Developed and maintained security awareness training materials such as phishing simulations or security best practice guides.
- Excellent interpersonal, communication, problem-solving, and client servicing skills

Work Experience

Capgemini, India

May 2022 – Nov 2024

Key Result Areas:

- Highly motivated and results-oriented Security Analyst with 2+ years of experience in deep dive analysis of triggered alerts, threat detection, vulnerability management, and incident response.
- Hands-on experience in core security tools such as SIEM (Splunk, Devo), EDR (CrowdStrike), Microsoft defender, Email Security (Proof Point), vulnerability scanners (Nessus).
- Identified and investigated security incidents (phishing attempts, malware infections, Active attacks) using SIEM, EDR leading to mitigation and improved security posture.
- Actively involved in developing and documentation of incident response procedures to improve the organization's response time and effectiveness in handling security breaches.
- Good understanding & hands on experience on various SOC processes like monitoring, analysis, playbooks, escalation, incident documentation, SLAs, client meetings, report walk throughs, Major Incident management bridge calls, etc.
- Collaborated with IT teams to implement effective security controls and maintain a strong security posture.
- Stayed up-to-date on the latest security threats and vulnerabilities through continuous learning and participation in security training programs.
- Led incident response efforts, including detection, containment, eradication, and recovery of security incidents

Awards & Honors

- Propeller Award for exceptional contributions and recognized as an Ace Pro Learning Champion for my dedication to continuous professional development in the year 2024.
