TECHNICAL SKILLS

Frameworks: Angular, NativeScript.

Web Technologies: JavaScript, TypeScript, HTML5, CSS3, Bootstrap, NgRx, RxJS, Spartacus, Karma, Jasmine, ECMAScript.

Others: Git, GitHub, Gitlab, Agile (Scrum), JSON, REST API, Jira, Postman, HTTP Methods.

WORK EXPERIENCE

Software Engineer

DMI Inc.

01/2020 - Present,

Noida, India

Achievements/Tasks

- **Analyzed frontend site performance** and improved it where needed.
- Developed and maintained complex Angular applications for a large enterprise, focusing on creating scalable and maintainable front-end solutions.
- Worked collaboratively with cross-functional teams to deliver high-quality, responsive web applications.
- **Optimized web pages** for maximum speed and scalability.
- Exposure on the tools like **Bitbucket, Source Tree, JIRA, Figma**.
- Gained good understanding of UI/UX, frontend design principles, and **RESTful APIs**.
- Created and maintained **unit test cases** using **Karma** and **Jasmine** to ensure robust and reliable application functionality.
- Optimized application performance through code refactoring, bundle size reduction, and **lazy loading** techniques.
- Familiarity with **agile** development methodologies, including sprint planning, estimation, and continuous integration.

EDUCATION

B.Tech (Computer Science)

AIET, Jaipur

Aug 2015 - June 2019

PROJECTS

ATD/NTD App: American Tire Distributors

- Technologies used: **TypeScript, Native Script, Angular 14, HTML, CSS, GitHub**.
 - Developed Mobile App for iOS & Android using Angular- NativeScript framework.
 - Involved in requirement gathering and designing from internal BAs.
 - Leveraged Angular modules and lazy loading to optimize application performance.
 - Developed new screens, functionality, features and fixed existing bugs.
 - Adhered to best practices for modular, maintainable, and testable code.
 - Migration done from Angular version 11 to 14.

Hymetals Spartacus Storefront

- Technologies used: **Spartacus, Sap commerce, Angular 15, HTML, CSS, GitHub, TypeScript**.
 - Developed new Spartacus components.
 - Hybris to Spartacus component mapping.
 - Consumed hybris endpoints by using adaptors, connectors in Spartacus.
 - Developed new custom components using Spartacus framework.
 - Developed unit tests using Karma and Jasmine and helping define the overall testing strategy to achieve 100% code coverage.
 - Fixed UI issues and helped team with UI changes.

Monster Shop: Monster Energy

- Technologies used: **Angular 11, HTML, CSS, GitHub, TypeScript**.
 - Developed new screens, functionality, features and fixing the existing bugs for the storefront.
 - Designed and implemented Angular components, directives, pipes, and services to build robust, maintainable, and scalable web applications.
 - Integrated with RESTful APIs to manage data flow.

Maui Jim

- Technologies used: **Angular 14, CSS, HTML, TypeScript, GitHub**.
 - E-commerce web app for different categories of sunglasses and frames.
 - Developed UI components and fixed existing bugs.
 - Complete App UI reskin done using HTML and CSS.
 - Written code in compliance with web and mobile standards for cross-browser and platform compatibility.
