- Developed application using HTML5, CSS3, React Material UI, ES6+, Next JS, React JS, Redux, React Native, Virtual DOM, JSX.
- Worked in developer tools for debugging and thorough exposure on cross browser/cross device compatibility & cross browser issues.
- Worked on cross browser & responsively development using media queries.
- Worked in version control systems & defect management tool – JIRA & GitLab.
- Worked on unit testing using JEST Library and Code Coverage for SonarQube.
- Participated in weekly requirement meetings.
- Attended meetings with clients regarding issues and solutions.
- Responsible for code reviews and tracking of task accomplishments
- Managed Team and Project and sharing daily update reports with clients.

Project 2 : Eyecare Partners Patient Portal

Client : Clarkson Eyecare

Technologies : HTML5, CSS3, React Material UI, ES6+, Typescript, React JS, Redux, Virtual DOM, JSX, React Native

Role : Web & Mobile Front End UI Developer

Description : Clarkson Eyecare is proud to be a medically based optometric group. Our team of highly trained optometrists, opticians, and technicians focus on maintaining the health and development of your eyes by providing the most comprehensive eye exam with the latest in vision care technology. Clarkson Eyecare looks forward to continued growth in the future, and to the opportunity to serve more patients.

Responsibilities

- Worked with HTML5, CSS3 and React Material UI to create responsive web designs for multiple website pages.
- Developed application using HTML5, CSS3, React Material UI, ES6+, Next JS, React JS, Redux, Virtual DOM, JSX.

- Worked in developer tools for debugging and thorough exposure on cross browser/cross device compatibility & cross browser issues.
- Worked on cross browser & responsively development using media queries.
- Worked in version control systems & defect management tool – JIRA & GitLab.
 - Worked on unit testing using JEST Library and Code Coverage for SonarQube.
 - Participated in weekly requirement meetings.
 - Attended meetings with clients regarding issues and solutions.
- Responsible for code reviews and tracking of task accomplishments
- Managed Team and Project and sharing daily update reports with clients.

Project 3 : SRS Content Hub

Client : SRS

Technologies : HTML5, CSS3, Bootstrap Vue, ES6+, Vue.js, Vuex

Role : Web & Mobile Front End UI Developer

Description : Aqua Quick Ship may be a new brand, but our roots are grounded in over 15 years of fulfilment experience. Bel-Aqua Pool Supply, Cinderella, and Florida Water Products all engaged in fulfilment activities as part of their legacy business. Upon joining the Heritage Pool Supply Group family, these three separate fulfilment platforms were merged into one seamless enterprise incorporating each brand's best practices and offering thousands of products ready for immediate shipment from six distribution centres located around the United States with 1–2-day shipping time to most of the country. The expertise of our people combined with the resources to build the best operating and shipping platform in existence makes Aqua Quick Ship the easy choice to meet all your fulfilment needs.

Organization – Vxceed Software Solutions Pvt. Ltd

Products : GoOrdr Webstore (FMCG eCommerce), GoOrdr Bloom

Client : Unilever

Technologies : HTML5, CSS3, React Bootstrap, ES6+, React JS, React Native, Redux, Virtual DOM, JSX

Role : Web & Mobile Front End UI Developer

Description : GoOrd Webstore is an application which connects Distributors to its customers through a Web & Mobile application. Customers are always connected and can purchase products 24/7. Fast-moving consumer goods, also known as consumer-packaged goods, are products that are sold quickly and at a relatively low cost. These goods are purchased frequently, are consumed rapidly, are priced low, and are sold in large quantities. They also have a high turnover when they're on the shelf at the store.

Responsibilities:

- Worked with HTML5, CSS3 and React Bootstrap to create responsive web designs for multiple website pages.
- Developed application using HTML5, CSS3, ES6+, React JS, Redux, React Native, React Bootstrap, Virtual DOM, JSX.
- Worked in developer tools for debugging and thorough exposure on cross browser/cross device compatibility & cross browser issues.
- Worked on cross browser & responsively development using media queries.
- Worked in version control systems & defect management tool – JIRA & GitHub.
