PROJECTS CARRIED OUT:

Company Name : ExamRoom.AI

Project Names : ExamRoom V1, Credentia, Valhalla, NCCT and FGIA.

Project Domain : Exam Modules

Role : Senior QA Engineer

Consoles : Candidate console, onboarding console, Proctor console, Client and Shift Manager.

Description: We strive to provide a more efficient and streamlined remote proctoring service for all users, both administrators, and candidates. we see the need for increased protection from outside hackers and cheating. Our experienced team of developers has created a seamless platform for online proctoring. They are continuously working to make our system safe and secure for the test takers and the integrity of the content provided. By utilizing APIs and LTIs to create an automated system integrating with most LMS and databases, we can support a single sign-on system. Ensuring exam integrity by providing live person onboarding agents to verify identity and environment scans. Proctoring can be delivered by a live person, with AI assistance, or a standalone AI proctoring service.

we have three missions: Offer convenient online testing, provide a secure testing environment, and provide exceptional customer service. With our staff of experienced proctors, ExamRoom.AI gives the candidate more flexibility for scheduling online proctors. Candidates pick the day and time that works best for them, versus the limitation of a schedule.

Company Name : Provab Technosoft Private Limited,

Project Names : Alghanim, Bab-safar, Alsayed and Bookers.

Project Domain : Travel and Flight Search Engine

Role : QA Engineer

Console : B2B console and B2C console

Description : we are providing travel portal development and mobility solutions company, delivering B2B / B2C travel software, travel CRM, accounting software, car rental software and mobility solutions to global travel & hospitality companies. We work with over forty top travel aggregators, global distribution systems, channel managers and DMCs. With clear focus on technology, agile methodology and innovations. Also we have providing open travel distribution for Booking Flights, Hotels, Cars, Transfers and Activities.

Company Name : Finari Services Private Limited

Project Names : Hospisource

Project Domain : Hospitality

Role : Junior QA Engineer

Console : B2C and Admin console.

Description : Hospisource is an online platform specifically designed for the Hospitality Industry. It was started in an aim to connect the buyers from Restaurants /Hotels/Caterers/ IT&ITES Cafeterias /Factories with the suppliers/ seller ie., OEM (Original Equipment Manufacturers), Distributors, Importers and the Operational Suppliers. This would help in reduction of time taken to find the suppliers both for FF&E (Furniture, Fixtures & Equipment), OS&E (Operating Supplies & Equipment). The subscription model is free for the buyer but the supplier/Seller will be required to pay an on-boarding fee & annual subscription fee. The seller will also be rated by the buyer on parameters such as ease of doing business /prompt response/ lead time /proper packaging / delivery within said time frame etc.

Declaration: I hereby acknowledge that the above furnished details are true to the best of my knowledge
