SUMMARY

Dynamic Frontend Developer with over a year of experience in building high-performance, scalable web applications using React.js and modern JavaScript libraries. Skilled in Data Structures and Algorithms, with a strong ability to optimize code and solve complex problems. Experienced in integrating frontend systems with RESTful APIs and enhancing UX/UI to support business goals. Committed to driving user engagement and business success through innovative and effective solutions.

SKILLS

Languages: HTML5, CSS3, JavaScript (ES6+), Python, Node.js, C

Frameworks: React.js, Redux, Bootstrap, jQuery, Tailwind CSS

Tools: Git, GitHub, Figma, Nginx, Linux, AWS

Practices: Agile/Scrum, TDD, CI/CD

EXPERIENCE

- 6/2023 - Present **Frontend Developer - React.js** Intuitive Apps
- Developed and maintained responsive web applications using React.js, optimizing for performance and cross-browser compatibility.
 - Collaborated with product designers and managers to build and improve workflows, user experiences and front end architecture for various personas.
 - Integrated frontend components with backend services via RESTful APIs, leveraging Postman for API testing and debugging to ensure seamless data exchange.
 - Designed and implemented user-friendly web pages, applying best practices in UI/UX to enhance user engagement and achieve business objectives.
- HTML5 / CSS5 / Javascript / React.js / JQuery / Bootstrap / Troubleshooting

PROJECTS

- Intuitive Apps Inc **KYCEE** kycee.in
- A real-time verification tool with B2B and B2C usecases.
 - Worked closely with cross functional teams, including designers, backend developers, and product managers, to build using agile methodologies and prioritize features.
- React.js
- Intuitive Apps Inc **HRMS**
- Developed intuitive and user-friendly interfaces, making it easier for employees and HR staff to navigate the system.
 - Designed and implemented key features such as employee onboarding, leave management, and performance tracking, improving overall HR efficiency.
- React.js / Redux / Python / Django Backend
- Personal **Ecocarte** Ecocarte.netlify.app
- Developed a dynamic e-commerce app using ReactJS, Redux, Shadcn, Tailwind CSS, and Firebase. Implemented features for product browsing, cart management, and order handling, with secure Firebase authentication and real-time Firestore operations.
- React.js / Redux / Tailwind CSS / Firebase / Shadcn
- IEEE **An Integrated Machine Learning Approach for Malicious Traffic Detection in WSN's.**
- Developed a hybrid machine learning model combining SVM and Random Forest to detect malicious traffic in WSNs, achieving an accuracy of 96.33
 - Integrated the model into existing WSN frameworks, enhancing security and reducing false positives compared to individual models.

EDUCATION

- 6/2018 - 6/2021 **Amrita School of computing, Mysuru**
BCA
- 6/2021 - 6/2023 **Amrita School of computing, Mysuru**
Integrated MCA

CERTIFICATES

- Programming Foundation using JavaScript, HTML, and CSS - Coursera, Jan 2021
- AWS Builder Online Series - AWS, Feb 2023
