PROFILE

A Senior Software Engineer with 5 years of professional experience, specialized in Dot Net Framework. A proven track record of managing large scale software engineering projects to support cloud deployments and integrations.

TECHNICAL SKILLS:

Front-End Technologies \ Web Technologies:	HTML5/4, CSS, XML, RAZOR, AJAX, Bootstrap, jQuery,
Architectural Patterns \ Programming Languages	MVC \ ASP.NET CORE, ASP.NET MVC, ASP.NET CORE, .NET Framework.
Databases \ Data Access:	MS SQL Server 2014/2012 \ ADO.NET, LINQ, Entity Framework, Framework Core.
Development IDE \ Reporting Services:	Visual Studio 2015/2017/2019, SSMS \ SQL Server Reporting
Web Servers \ Web Services:	IIS (Internet Information Server) \ HTTPS, JSON, REST, WEB API, WCF
Cloud Services \ Testing Tools	Swagger, Postman, GitHub, SCRUM, Azure Devops

EDUCATION:

- Bachelor of Engineering (2006-2010) from Mumbai University passed with Distinction.
- HSC from Maharashtra Board in 2006.
- SSC from Maharashtra Board in 2004.

SOFTWARE DEVELOPMENT EXPERIENCE:**Gebbs Healthcare Solutions****Mar-2022 - Present****Senior Software Engineer**

- Responsible for understanding the business requirement of the client.
- Developing the Design and Functional specifications and Flow of business.
- Worked on SPA with Angular 12 Version.
- Created data access layer to communicate with the SQL Server Database with ADO.Net objects and Entity Framework Core.
- Worked on ADO.Net components SQL Connection Object, SQL Command Object, Data Reader, Data Adapter, Data Set and Data View to provide communication to the database.
- Build Project on Dot Net Framework with the help of Asp.Net core and Asp.net MVC.
- Extensively used data controls like data view controls and dropdown list controls for manipulating the data
- Created Stored Procedures, Functions in SQL Server to insert, update, and delete data inside tables.
- Built and Consumed Web API in the project.
- Built REST Services and used JSON, AJAX in the Application.

- Database restoring and taking back the backup of the database.
- Performing unit testing for various modules of the system.

Development Environment: Visual Studio 2019, .Net Framework 4.0, ASP.Net, ASP.NET CORE 3.1, .net6 C#, HTML, CSS, ADO.NET, jQuery, MS SQL Server, JavaScript, GitHub. Web API- 2.0., Entity Framework, LINQ, Azure DevOps, Angular 12, WCF

Synergy Technologies Services, Mumbai

Mar 2021- Feb 2022

Software Engineer

- Responsible for understanding the business requirement of the client.
- Developing the Design and Functional specifications and Flow of business.
- Worked on SPA with Angular 12.
- Worked on Themes and CSS for the layout of the web application.
- Created data access layer to communicate with the SQL Server Database with ADO.Net objects and Entity Framework.
- Worked on ADO.Net components SQL Connection Object, SQL Command Object, Data Reader, Data Adapter, Data Set and Data View to provide communication to the database.
- Build Project on .Net Framework with the help of Asp.Net core and Asp.net MVC.
- Extensively used data controls like data view controls and dropdown list controls for manipulating the data
- Used Angular in building a Single Page Application
- Created Stored Procedures, Functions in SQL Server to insert, update, and delete data inside tables.
- Built and Consumed Web API in the project.
- Built REST Services and used JSON, AJAX in the Application.
- Database restoring and taking back the backup of the database.
- Performing unit testing for various modules of the system.

Development Environment: Visual Studio 2015/2017/2019, .Net Framework 4.0, ASP.Net, ASP.NET CORE 2.2/2.1, C#, HTML, CSS, ADO.NET, jQuery, MS SQL Server, JavaScript, GitHub. Web API-2.0., Entity Framework, LINQ, Azure DevOps, App Service, Angular 12

Exits Consultancy Services, Mumbai

Nov 2018 – Mar 2021

Software Developer

- Responsible for understanding the business & the technology of the client system.
- Developing the Design and Functional specifications and Flow of business.
- Designed and developed Web based UI in C# using different controls like HTML Controls, Data Controls and Web Controls.
- Worked on Themes and CSS for the layout of the web application
- Created data access layer to communicate with the SQL Server Database with ADO.Net objects.
- Worked on ADO.Net components SQL Connection Object, SQL Command Object, Data Reader, Data Adapter, Data Set and Data View to provide communication to the database.

- Developed User Interface (UI) using WPF for the better look and feel of the desktop-based application
- Extensively used data controls like data view controls and dropdown list controls for manipulating the data
- Applied Master pages, and CSS, Navigation Controls, HTML, for a consistent look and feel for page designing.
- Created Stored Procedures, Functions in SQL Server to insert, update, and delete data inside tables.

Environment: Visual Studio 2015/2017, .Net Framework 2.0, ASP.Net, ASP.NET CORE, C#.Net, HTML, CSS, ADO.NET, jQuery, MS SQL Server JavaScript, Web API, Entity Framework and LINQ
