

RANGASAMY MURUGAN

Technical Team Leader | Software Architect | 📍 Bangalore, Karnataka
📞 +91 70101 79652 ✉️ rangasamy.psg@gmail.com 🌐 [GitHub](#) [LinkedIn](#)

Summary

Dynamic and strong leadership **UI & Web Developer** with over **10+ years of experience** in front-end and web application development. Strong technical expertise in **HTML5, CSS3, Bootstrap, JavaScript/ES6, jQuery, React JS, PHP and Laravel**. Proven ability to **lead cross-functional teams**, coordinate between UI and backend teams, and deliver high-quality solutions on time.

Technical Skills

Programming Languages: PHP, Node JS, JavaScript, jQuery, HTML, CSS, MySQL, PostgreSQL, MongoDB

Frameworks/Libraries: Laravel, CodeIgniter, CakePHP, Zend, React JS, Handlebars JS, Bootstrap, Redux, ORM, Express JS

Developer Tools: Firebase, VS Code, Postman, Git, GitHub, Bit Bucket, Composer, XAMMP, WAMP, LAMP, NPM

Development Practices : CI/CD Pipe line, Design Patterns, Code Reviews, MVC Architecture, SOLID Principle, Dockers

Projects

CUSTOMER RELATIONSHIP MANAGEMENT | *PHP, Laravel, React JS, Mysql, Redux, Bootstrap, JavaScript/ES6, Typescript, REST API*

- Developed a scalable full-stack CRM system using Laravel and React JS, with a **REST APIs architecture** and responsive **UI/UX**.
- Collaborated (**RBAC**), allowing administrators, sales teams, and support staff to manage customer records securely and efficiently.
- Configured a complete **CI/CD pipeline** with **Git, GitHub Actions** for a Laravel app, automating testing, build, and cloud deployment.

ACCOUNTING & BOOK KEEPING | *PHP, Laravel, React JS, Mysql, Bootstrap, Tailwind CSS, Docker, REST API, Handlebars JS*

- Reduced **REST APIs** responsetimeby **60%** through **database optimization** and efficient query handling and **indexing** in **MySQL**.
- Enhanced accounting and bookkeeping features using Xero, Maatwebsite, with a **70%** focus on invoice generation and integration.
- Debugged, tested (**PHPUnit**), and maintained high-availability Laravel app using **Docker**, achieving a **40%** reduction in setup time.

TAXI APPZ | *PHP, Laravel, Mysql, AWS(s3), Bootstrap, JavaScript/ES6, jQuery, Docker, REST API, LAMP, Github, Mvc Design Pattern*

- Improved a modular Laravel application using **service layers, repositories**, and **contracts** to enforce a clean separation of concerns.
- Integrated **FCM** for real-time ride alerts and multi-gateway payment processing (**Stripe, PayPal, Razorpay**) for efficient transactions.
- Designed dashboards with Chart JS to track trips and earnings, using observers for real-time updates via **event-driven architecture**.

Experience

Ultra stone impex pvt ltd (TECHNICAL TEAM LEADER)

📍 Bangalore, Karnataka **JUL/2024 – Present**

Integra Global Solutions (SR. PHP DEVELOPER)

📍 Coimbatore, TamilNadu **SEP/2023 – APR/2024**

AVCRI (WEB DEVELOPER)

📍 Coimbatore, TamilNadu **NOV/2022 – SEP/2023**

Sumanas Technologies pvt ltd (WEB DEVELOPER)

📍 Coimbatore, TamilNadu **AUG/2021 – JUN/2022**

TCP International inc (SR. SOFTWARE ENGINEER)

📍 Coimbatore, TamilNadu **JAN/2020 – FEB/2021**

Episode Technologies (WEB DEVELOPER)

📍 Coimbatore, TamilNadu **NOV/2016 – AUG/2019**

Flocks web media pvt ltd (SR. SOFTWARE ENGINEER)

📍 Coimbatore, TamilNadu **MAR/2014 – NOV/2015**
