PROFILE INFO

Results-driven and certified Scrum Master with a proven track record of guiding cross-functional teams to deliver exceptional products. Equipped with in-depth knowledge of Agile methodologies and JIRA tool. Worked on SPRINT to track the progress of the project. I am committed to fostering a collaborative and high-performing environment. My goal is to leverage my expertise in Agile project management, team facilitation, and continuous improvement to drive successful product development and elevate the overall efficiency and effectiveness of the organization.

PROFESSIONAL EXPERIENCE

Tata Consultancy Services | Scrum Master

June 2020 – December 2023

- Acted as the Scrum Master for the team, overseeing all aspects of related tasks/responsibilities.
- Developed and maintained strong relationships with key stakeholders, ensuring alignment with project goals and objectives.
- Created a trusting and safe team environment, fostering open communication and problem-solving without fear of blame or retribution.
- Facilitated discussions, decision-making processes, and conflict resolution within the team, resulting in improved collaboration and project outcomes.
- Encouraged team members to build relationships, promoting both internal and external communication channels to enhance transparency.
- Worked on JIRA tool to track the progress of the Project.
- Coordinated closely with Product Owner for efficient product backlog management, concept grooming, and feature delivery.
- Facilitated sprint ceremonies, consistently achieving sprint objectives and ensuring effective cross-functional collaboration.
- Worked closely with internal and external stakeholders, resolving dependencies, collaborating with QA, Integration, and Testing teams.
- Monitored and controlled key metrics, including Sprint/release burndown, Velocity, and defects, to meet project and production goals.
- Proactively removed impediments and resolved team conflicts to maintain focus on product backlog and project timelines.
- Guided the team in implementing Agile/Lean Principles, such as thin slicing and value stream mapping, to deliver value frequently to customers.
- Provided coaching and mentorship to team members, empowering them to reach their highest potential.
- Cultivated a culture of transparency, continual improvement, and self-organization within the team.
- Identified and controlled project risks through prevention, mitigation, and contingency planning.
- Ensured that Sprint deliverables adhered to quality and regulatory guidelines.

SAP Consultant
